Business Studies September 2014 Memorandum:

Conflict & Prosperity Menachem Blondheim, Andreas Stergio, Kıvanç Ulusoy, 2017-08-07 The eastern part of the Mediterranean is witnessing some of the most intriguing and dangerous events in today's world. It features weak or collapsed states, direct and proxy wars, and a confluence of great power stakes. In recent years, a new and significant element has been added to the region's troubled search for equilibrium: the discovery of substantial treasures of offshore energy. These energy discoveries are widely recognized as a game changer. This volume investigates the extent of this change and the range of its implications. The Eastern Mediterranean has historically been a meeting point of east and west, of the economic north and south, and of three major world religions: Christianity, Islam, and Judaism. However, this volume proposes to view the Eastern Mediterranean as a separate new region and not as a mere extension of neighboring continents or even of the Middle East. This analytical frame stands at the center of the book.

Emerging Dynamics of Sustainability in Multinational Enterprises John R. McIntyre, Silvester Ivanaj, Vera Ivanaj, Rabi N. Kar, 2016-02-26 Economic development that meets the needs of the global population without jeopardizing the capacity of future generations is a worldwide challenge for multinational enterprises (MNEs). They are expected to balance their role as global economic actors and environmental stewards in the environment in which they operate. Contributors from India, Europe, and the United States offer new perspectives contrasting US, European, and emerging economies' approaches to sustainability and how they can generate roadmaps which yield innovative solutions for one of the most contentious issues of our era. Their review suggests that the differential performance across developed and emerging economies has exposed potential weaknesses. Emerging Dynamics of Sustainability in Multinational Enterprises promotes greater emphasis on experimenting with unique local and sustainable approaches to solving problems faced by firms in or from emerging economies. This is a critical resource for researchers, practitioners, and policy makers concerned with sustainable development issues and a fresh reference for graduate-level students and academics focusing on corporate governance, sustainable development, and ethics, as well as multinational enterprise management.
