**The South African State Transformed?** Louis A. Picard, Thomas M. Mogale, Caitlin C. Corrigan, 2024-09-10 This book examines the nature of the 1994 political transition in South Africa and its impact on post-apartheid South Africa. Specifically, it examines the failures of liberalism within the context of the transitional process that led to the institution if not the practice of a non-racial state in 1994. The term liberal is an eclectic term defining a several of views political and economic. We use the term here within context but essentially define it as a commitment to open views the willingness to consider change and to value basic human rights. The nature of institutional change in South Africa as it moved towards a democratic state would influence whether South Africa would succeed as a newly industrializing pluralist democratic country or collapse into yet another African failed state. As South Africa moves toward its fourth decade of majority rule the view towards the future is much less promising than it was in 1994.

**Innovative Methods for Rare Disease Drug Development** Shein-Chung Chow, 2020-11-11 In the United States a rare disease is defined by the Orphan Drug Act as a disorder or condition that affects fewer than 200 000 persons. For the approval of orphan drug products for rare diseases the traditional approach of power analysis for sample size calculation is not feasible because there are only limited number of subjects available for clinical trials. In this case innovative approaches are needed for providing substantial evidence meeting the same standards for statistical assurance as drugs used to treat common conditions. Innovative Methods for Rare Disease Drug Development focuses on biostatistical applications in terms of design and analysis in pharmaceutical research and development from both regulatory and scientific statistical perspectives. Key Features: Reviews critical issues e.g. endpoint margin selection, sample size requirements and complex innovative design. Provides better understanding of statistical concepts and methods which may be used in regulatory review and approval. Clarifies controversial statistical issues in regulatory review and approval accurately and reliably. Makes recommendations to evaluate rare diseases regulatory submissions. Proposes innovative study designs and statistical methods for rare diseases drug development including n of 1 trial design, adaptive trial design and master protocols like platform trials. Provides insight regarding current regulatory guidance on rare diseases drug development like gene therapy.

*Suid-Afrikaanse Hofverslae*, 2015 **Accommodating Muslims under Common Law** Salim Farrar, Ghena Krayem, 2016-07-15 The book explores the relationship between Muslims the Common Law and Shar'ah post 9/11. The book looks at the accommodation of Shar'ah Law within Western Common Law legal traditions and the role of the judiciary in particular in drawing boundaries for secular democratic states with Muslim populations who want resolutions to

conflicts that also comply with the dictates of their faith Salim Farrar and Ghena Krayem consider the question of recognition of Shar ah by looking at how the flexibilities that exists in both the Common Law and Shar ah provide unexplored avenues for navigation and accommodation The issue is explored in a comparative context across several jurisdictions and case law is examined in the contexts of family law business and crime from selected jurisdictions with significant Muslim minority populations including Australia Canada England and Wales and the United States The book examines how Muslims and the broader community have framed their claims for recognition against a backdrop of terrorism fears and how Common Law judiciaries have responded within their constitutional and statutory confines and also within the contemporary contexts of demands for equality neutrality and universal human rights Acknowledging the inherent pragmatism flexibility and values of the Common Law the authors argue that the controversial issue of accommodation of Shar ah is not necessarily one that requires the establishment of a separate and parallel legal system

**Wearing the Niqab** Anna Piela,2021-01-14 Bringing niqab wearers voices to the fore discussing their narratives on religious agency identity social interaction community and urban spaces Anna Piela situates women s accounts firmly within UK and US socio political contexts as well as within media discourses on Islam The niqab has recently emerged as one of the most ubiquitous symbols of everything that is perceived to be wrong with Islam barbarity backwardness exploitation of women and political radicalization Yet all these notions are assigned to women who wear the niqab without their consultation niqab debates are held without their voices being heard and when they do speak their views are dismissed However the picture painted by the stories told here demonstrates that for these women religious symbols such as the niqab are deeply personal freely chosen multilayered and socially situated Wearing the Niqab gives voice to these women and their stories and sets the record straight enhancing understanding of the complex picture around niqab and religious identity and agency

**The Enlightened Shareholder Value Principle and Corporate Social Responsibility** Taskin Iqbal,2021-07-07 The Enlightened Shareholder Value principle and Corporate Social Responsibility are areas of increasing academic and research interest However discussions on the ESV principle in relation to CSR are very limited This book provides a critical analysis of the impact of the concept of ESV embedded in the Companies Act 2006 on CSR and explores the scope for reform Along with analysing existing empirical research it presents the findings of an empirical study conducted to determine whether the concept of ESV is capable of promoting or assisting CSR The book also examines whether implementing an ESV approach has had any impact on the CSR practices of multinational corporations that originate in the UK and operate in developing nations as in order to assess whether the ESV principle links to CSR both its domestic and international impact need to be considered This analysis was undertaken through the lens of a case study on the ready made garment industry in Bangladesh with some focus on the Rana Plaza factory disaster This study also assists in demonstrating the changes that need to be made to improve the current situation Lastly the book addresses the need for

reform in the area and provides possible suggestions for reform This interdisciplinary book will be of great interest to students and scholars of corporate law corporate governance and business studies in general as well as policymakers NGOs and government departments in many countries around the world working in the fields of CSR sustainability and global supply chains

K. Scher,2016-02-19 A Choice Highly Recommended Title January 2017 This book is an interpretive analysis of political campaigns in America instead of focusing on how campaigns are designed and run it investigates the role campaigns play in our American politics and the close symbiosis between campaigns and those politics The text examines how campaigns are an important manifestation of how we do politics in this country Hallmarks of this text include showing how campaigns can undermine our democracy and asking how democratic they and by extension our politics really are demonstrating that the ability of the media to accurately fairly and deeply report on campaigns has been severely compromised both because of the growing distance between campaigns and media outlets and because of the structure of Big Media corporate ownership and its tight relationship to Big Money It asks important questions about the media including How do the media reporters in particular cover campaigns What pressures and forces shape what and how they present campaigns What is the impact of the ever increasing chasm separating campaigns and the media How does the close tie between corporate mainstream media and Super PAC money affect campaign coverage How does the ability of campaigns and media to segment voters into ever smaller slices influence how campaigns are covered tracking the continuing growth of unregulated private unaccountable dark money in campaigns as a threat to our democratic elections and politics Democracy rests fundamentally on transparency and accountability sunlight and our campaign laws and norms now allow and encourage exactly the opposite largely because of decisions by the United States Supreme Court
