**Straits and Seaways: Controls, Processes and Implications in Modern and Ancient Systems** V. M. Rossi,S.G. Longhitano,,C. Olariu,F.L. Chiocci,2023-03-29 Straits and seaways represent key connections of oceans and seas between emerged landmasses regulating water sediment and biota exchanges and influencing local and global climate A good understanding of the dynamic evolution of straits and seaways is therefore fundamental to accurately reconstruct the paleoecology sedimentology and stratigraphy of interconnected basins to reconstruct past Earth s system climate dynamics and to exploit different types of resources This book provides a comprehensive collection of articles dealing with both ancient and modern case studies bringing together different but complementary disciplines such as marine geology and process sedimentology and stratigraphy With the contents covering the evolution geomorphology stratigraphy sedimentology

oceanography paleogeography and influence on climate of straits and seaways the book is of interest to earth scientists in many fields    Functional Genomics and Evolution of Photosynthetic Systems Robert Burnap,Wim Vermaas,2011-09-18 New possibilities have been brought about by the stunning number of genomic sequences becoming available for photosynthetic organisms This new world of whole genome sequence data spans the phyla from photosynthetic microbes to algae to higher plants These whole genome projects are intrinsically interesting but also inform the variety of other molecular sequence databases including the recent meta genomic sequencing efforts that analyze entire communities of organisms As impressive as they are are obviously only the beginning of the effort to decipher the biological meaning encoded within them This book aims to highlight progress in this direction This book aims toward a genome level understanding of the structure function and evolution of photosynthetic systems and the advantages accrued from the availability of phyletically diverse sets of gene sequences for the major components of the photosynthetic apparatus While not meant to be fully comprehensive in terms of the topics covered it does provide detailed views of specific cases and thereby illustrates important new directions that are being taken in this fast moving field a field that involves the integration of bioinformatics molecular biology physiology and ecology    *Among Herders of Inner Mongolia* Christel Braae,2017-10-20 This is a study of a unique collection of Inner Mongolian artifacts at the National Museum of Denmark They are described analyzed and presented in a catalogue of more than 800 items documenting the daily life of pastoral society in and around the tent in the herding of the animals in caravan trade and in hunting crafts sports and games and in ritual life Information about the objects was obtained during two expeditions to Inner Mongolia in the 1930s led by the Danish author Henning Haslund Christensen who had many years experience of travel and expedition life in Mongolia This is also a detailed account of the expeditions of the routes means and measures as well as the worries and hopes of the participants of their struggles with scientific aspirations and of the conditions for collecting against the backdrop of the Chinese civil war and the Japanese occupation The First and Second Danish Expeditions to Central Asia took place in 1936 1937 and 1938 1939 respectively These expeditions were the sole foreign parties with access to the area at the time and therefore their members were among the few observers of Inner Mongolian pastoral society at a time and place for which information was and still is scant and fragmented Hence the material objects and data obtained are of great scientific importance in the documentation of the life and material culture of Inner Mongolian herders in the 1930s the main subject of the present book    *Control Applications in Marine Systems 2004* Reza Katebi,Sauro Longhi,2006-01-06    **Electronic Musician** ,2003    *InterRidge News* ,1999    **The Engineering Index Annual for ...** ,1918    Geophysical Memoirs Great Britain.
