### **Children's Rights Law in the Global Human Rights Landscape** Eva Brems, Ellen Desmet, Wouter

Vandenhoe, 2017-04-21 Children's rights law is often studied and perceived in isolation from the broader field of human rights law. This volume explores the inter-relationship between children's rights law and more general human rights law in order to see whether elements from each could successfully inform the other. Children's rights law has a number of distinctive characteristics such as the emphasis on the best interests of the child, the use of general principles and the inclusion of third parties e.g. parents and other care takers in treaty provisions. The first part of this book questions whether these features could be a source of inspiration for general human rights law. In part two the reverse question is asked: could children's rights law draw inspiration from developments in other branches of human rights law that focus on other specific categories of rights holders such as women, persons with disabilities, indigenous peoples or older persons. Finally, the interaction between children's rights law and human rights law and the potential for their isolation, inspiration or integration may be coloured or determined by the thematic issue under consideration. Therefore, the third part of the book studies the interplay between children's rights law and human rights law in the context of specific topics: intra-family relations, LGBTQI marginalization, migration, media, the environment and transnational human rights obligations.

**The SAGE Handbook of Early Childhood Policy** Linda Miller, Claire Cameron, Carmen Dalli, Nancy Barbour, 2017-10-02 Recent authoritative evidence suggests that an estimated 200 million children under five fail to achieve their developmental potential due to factors including poor health and nutrition and the lack of stable, high quality care. A significant number of the world's children today lack the basic rights to health, development and protection. In light of such statistics, early childhood services for young children have expanded around the world. The SAGE Handbook of Early Childhood Policy draws critical attention to policy in Early Childhood Education and Care (ECEC), its relationship to service provision and its impact on the lives of children and families. The perspectives of leading academics and researchers from Europe, North America, South America, Africa, Australasia and Asia have been arranged around five key themes: Part 1: The Relationship Between Research, Policy and Practice; Country Case Studies; Part 2: Equitable Early Childhood Services; Intervention to Improve Children's Life Chances; Part 3: Extending Practice: The Role of Early Childhood Services in Family Support; Part 4: Participation, Rights and Diversity; Part 5: Future Directions for Early Childhood Policy. This handbook is essential reading for practitioners, stakeholders and others committed to working within early years services to achieve an awareness of policy and its implications for services and practice.

*Texts Adopted by the Congress of Local and Regional Authorities of Europe* Congress of Local and Regional Authorities of Europe, *Sovereignty, Migration and the Law* Patricia Rushton, 2024-12-31 This book examines how states justify the creation of physical policy and legislative barriers of entry for migrants by drawing on a concept of sovereignty. The movement of people across the world in search of refuge from persecution, war and poverty is accelerating. And as states

confronted with this movement create physical policy and legislative barriers to entry they justify this exclusion by drawing on concepts of sovereignty This book interrogates that justification in an historical and theoretical context using the case study of Australian law and policy since 1900 as well as instances from other Western countries that have routinely copied from Australia But just as Australian migration policies are being replicated in the US Britain and Europe so this book argues is their employment of an anachronistic concept of sovereignty one that is reasserted precisely because of its waning power in the face of globalisation This book will be an important resource for law and political science scholars researchers and students in the fields of migration and refugee law and policy as well as to professional policy makers government
