ACTUAL RESEARCH IN MATHEMATICS AND SCIENCE EDUCATION DOÇ. DR. TAYFUN TUTAK,2022-09-16 *Achieving Balance through Efficiency* Stephen Demeo,2020-01-01

Those starting a career in teaching will put in an incredible amount of energy into their practice in order to learn their craft and become respected professionals In many cases however this energy is not enough to survive as a teacher Currently 1 in 5 new teachers will leave the profession after five years The purpose of this book is to improve the survivability of early career teachers by focusing on one key area Efficiency or what is referred to as Time Management This book will examine how teachers can become more efficient in their lesson and unit planning classroom organization assessment of their students how they interact with parents and even when they search and interview for a job Special emphasis is placed on one of the most challenging aspects of teaching classroom behavioral management The underlying basis for this book is a deep belief that successfully managing time will allow teachers to create a positive balance between one s professional and personal lives It is all too common to see time stressed and sleep exhausted teachers lose sight of the reasons they entered teaching eventually falling out of love with their subject and those they teach This book will tackle head on the demands that teachers face by posing many detailed practical solutions to time management problems in a variety of different contexts These solutions will not only come from the author s own experience preparing New York City science students for over 25 years

but from researchers and veteran teachers and administrators who have published their findings and advice in leading educational journals It is time to stop procrastinating and draw upon your inner grit to create order routines and systems that can be used successfully in your teaching profession

The Art of Teaching Science Jack Hassard, Michael Dias, 2013-07-04 The Art of Teaching Science emphasizes a humanistic experiential and constructivist approach to teaching and learning and integrates a wide variety of pedagogical learning tools These tools involve inquiry and experimentation reflection through writing and discussion as well as experiences with students science curriculum and pedagogy Becoming a science teacher is a creative process and this innovative textbook encourages students to construct ideas about science teaching through their interactions with peers professionals and instructors and through hands on minds on activities designed to foster a collaborative thoughtful learning environment
