**Creation of Ideas** Judith Seligson,2021-03-08 Gaps and the Creation of Ideas An Artist s Book is a portrait of the space between things whether they be neurons quotations comic book frames or fragments in a collage This twenty year project is

an artist's book that juxtaposes quotations and images from hundreds of artists and writers with the author's own thoughts. Using Adobe InDesign for composition and layout the author has structured the book to show analogies among disparate texts and images. There have always been gaps but a focus on the space between things is virtually synonymous with modernity. Often characterized as a break modernity is a story of gaps. Around 1900 many independent strands of gap thought and experience interacted and interwove more intricately. Atoms, textiles, theories, women, Jews, collage, poetry, patchwork and music figure prominently in these strands. The gap is a ubiquitous phenomenon that crosses the boundaries of neuroscience, rabbinic thinking, modern literary criticism, art, popular culture and the structure of matter. This book explores many subjects but it is ultimately a work of art.

ERDA energy research abstracts, 1977    Arctic Potential Rex W. Tillerson, 2015 This report was prepared in response to Secretary of Energy Ernest J. Moniz's request and provides a comprehensive study that considers research and technology opportunities to enable prudent development of U.S. Arctic offshore oil and natural gas resources. Today there is both increasing interest in the Arctic for economic opportunity and concern about the future of the culture of the Arctic peoples and the environment in the face of changing climate and increased human activity. Other nations such as Russia and China are moving forward with Arctic economic development. Facilitating exploration and development in the U.S. Arctic would

enhance national economic and energy security benefit the people of the north and the U S as a whole and position the U S to exercise global leadership Despite these benefits there are diverse views on how to balance this opportunity with environmental stewardship   **University of Arkansas Catalog** University of Arkansas, Fayetteville.
