Mabel Ann Brown

Advanced Level A L Time Table 2015:

Handbook of Public Transport Research Graham Currie, 2021-04-30 Providing a comprehensive overview and analysis of the latest research in the growing field of public transport studies this Handbook looks at the impact of urbanisation and the growth of mega cities on public transport Chapters examine the significant challenges facing the field that require new and original solutions including congestion and environmental relief and the social equity objectives that justify public transport in cities

Processes in GeoMedia—Volume III Tatiana Chaplina, 2021-04-26 This book presents the findings of recent theoretical and experimental studies of processes in the atmosphere oceans and lithosphere discussing their interactions environmental issues geology problems related to human impacts on the environment and methods of geophysical research It particularly focuses on the geomechanical aspects of the production of hydrocarbons including the laborious extraction of oils Furthermore it includes contributions on ecological problems of the biosphere This book corresponds to the English edition of the *Processes in GeoMedia* a Russian academic journal focused on new theoretical and experimental studies of the Earth's processes

Teaching and Time Poverty Greg Thompson, Anna Hogan, 2024-12-04 As teacher shortages reach a global crisis point this book explores how time poverty has become a critical factor in the working lives of teachers and school leaders Arguing that we need to move away from framing the problem of teachers work as simply workload this book suggests that understanding time poverty is the first step in moving toward more manageable working lives The book brings together international perspectives on teacher time poverty drawing on theoretical and empirical work to underscore the growing complexity of teachers work and how this impacts job satisfaction stress and feeling that there is never enough time to accomplish all that needs to be done Many policy solutions misdiagnose the problems of teachers work simply suggesting it is an issue of workload The chapters investigate issues of work intensification finding that teachers are not only working longer but also working harder as they manage more complex classrooms and policy mandates This book is essential reading for those interested in understanding how current education policy both produces time poverty and could better identify and respond to the complexities of teachers work

Prestressed Members with External Fiber-Reinforced Polymer (FRP) Tendons Tiejiong Lou, Yanan Wu, Sergio M.R. Lopes, 2025-02-03 Prestressed Members with External Fiber Reinforced Polymer FRP Tendons Design Assessment and Modelling provides an overview of using FRPs including how to predict the short term and long term behavior of externally prestressed concrete or steel concrete composite members their second order effects and how to examine the effectiveness of using FRP tendons instead of steel tendons for external prestressing As external prestressing is considered to be one of the most powerful techniques in strengthening of existing structures this book provides a comprehensive resource on the topics covered The conventional use of prestressing steel is however naturally prone to corrosion The best strategy to solve completely the corrosion problem is the use of nonmetal materials instead of prestressing steel Fiber reinforced polymer FRP composites are ideal materials used for external

tendons for their excellent corrosion resistance high strength and low weight Covers the use of FRP tendons when compared to those with external steel tendons including key design issues Addresses important topics in the field including the second order effects of immediate and sustained loads Examines the stress in external tendons moment redistribution linear transformation of external cables and prestress secondary moments Covers long term deformation prediction *Global Vessel-Source Maritime Pollution Governance—Technical Innovation and Policy Orientation* Lang Xu,Zheng Wan,Jihong Chen,2023-09-25 The maritime industry plays an important role in international trade activities and the global economy It is estimated that international shipping carries approximately 80% of global trade by volume and more than 70% by value However increasing maritime activities have had a negative impact on the marine environment and human health For example in November 2002 a tanker carrying 77000 tons of fuel oil sank in the Bay of Biscay which polluted thousands of kilometers of Western European coasts rivers streams and swamps Oil spills caused by ship accidents and other pollution associated with maritime activities have attracted considerable attention in the research community A large number of studies on shipping pollution have been conducted across different disciplines However new challenges are emerging in maritime operation and management leading to research questions related to intelligent technology and environmental protection maritime pollution and governance maritime accidents and environmental emergency **Handbook of Innovation Indicators and Measurement** Fred Gault,Anthony Arundel,Erika Kraemer-Mbula,2023-09-06 Providing nuanced insight into key areas of innovation studies this erudite second edition acknowledges the significance of innovation within the informal economy It contributes to the broader scholarly discourse on innovation indicators and measurement exploring the nature and rate of recent developments within the field Microbial Safety in Water Resources Pei-Ying Hong,Timothy R. Julian,Muhammad Raihan Jumat,2019-02-19 As more countries become water scarce alternative water sources like treated wastewaters will be used to meet the demands of the domestic agriculture and industrial sectors However the use of treated wastewater is only justified when it is without any detrimental impacts on public health food safety and water quality To minimize impacts well operated treatment plants are important barriers that reduce the amount of contaminants disseminated from wastewaters into the environment during reuse events Continuous accurate and comprehensive monitoring on our water further safeguards the public against potential risks This eBook looks into topics that close the knowledge gaps in these mentioned areas *The Shifting Global World of Youth and Education* Mabel Ann Brown,2017-08-15 The Shifting Global World of Youth and Education explores how increasing migration and population changes are having an unprecedented impact on global education Given that the number of children of migrant background is growing internationally there is a need for increasing awareness of the educational attainment and cultural integration of this population group This book presents international perspectives on migration and youth and analyses what kinds of effects such demographic changes are having on educational systems around the world The chapters in this volume provide a

fascinating insight into how countries around the world are dealing with loss or growth in their young population as well as changes to their education systems Written by specialist academics from the relevant country the book covers Cuba Lithuania the United Kingdom the United States Finland Greece Germany Austria Hungary Latvia China Australia India Italy and Poland Taking into consideration the countries social and political context the chapters discuss educational issues surrounding curriculum assessment and the opportunities available for the support of young people Conclusions are drawn about what could be done in the future for the benefit of both the migrant and the existing populations The Shifting Global World of Youth and Education will be of great interest to academics researchers and postgraduate students in the disciplines of education sociology political sciences and social work The book will also give secondary teachers teaching assistants social workers and youth workers the opportunity to reflect on their role within a national and international context Education
