Handbook of Obstetric Emergencies (Second Edition) DR GUNASEGARAN RAJAN, DR MUNISWARAN GANESHAN, DR TANG BOON NEE, DR THANEEMALAI JEGANATHAN, 2025-03-01 We are delighted to present the second edition of this Handbook in Obstetric Emergencies The first edition had 3 reprints with almost 3 000 copies sold both in Malaysia and overseas The Mandarin version has sold close to 1 000 copies in China We have kept the preface to the first edition as it still captures the essence of the content This updated handbook has revised content on most of the chapters incorporating new guidelines and evidence to ensure you have the most recent information at hand These guidelines are sourced from the leading health organisations and the global obstetrics and gynaecology societies The chapters have been critically reviewed by leaders in the field to whom we extend our gratitude Some of the topics have been redesigned to appear in the appendix to align with the curriculum that is being conducted at the onsite Intensive Course in Obstetric Emergencies ICOE This handbook serves as an indispensable resource for all the participants at the course and is complemented by videos and podcast via the QR code embedded in the chapters

The handbook has a design make over with softer tones to provide a more appealing appearance It is true that there are an abundance of digital resources available for obstetric emergencies We argue that there is still an enduring place for physical handbook for ease and quick reference of important information during emergencies It is sad that the recent WHO data show mothers still die in childbirth and it is hoped this handbook will be a useful resource to obstetricians and midwives as it endeavours to provide a clear medical approach during critical moments in childbirth *Advances in Medical Education*
