*Creating Successful Communities* Luther Propst, Stephen F. Harper, Michael The Conservation Foundation, Michael Mantell, 2012-07-11 Creating Successful Communities is a practical compendium of techniques for effective land use and growth management. It offers a framework for land use decisionmaking and growth management techniques for protecting key resources such as agricultural land, open space, historic and cultural structures, aesthetics, and rivers and wetlands as well as ways to organize effectively. The companion Resource Guide provides detailed information on topics covered in *I: Creating Successful Communities*

**Law Books in Print: Publishers**, 1997    **Achieving Airport-compatible Land Uses and Minimizing Hazardous Obstructions in Navigable Airspace** Jocelyn Waite, 2012 This report discusses airport compatible land use requirements, the legal issues related to achieving airport compatible land use, and legal issues particular to eliminating hazardous obstructions to airspace. The report concludes by reviewing the major legal issues of concern in achieving airport compatible land use. While general legal principles relevant to airport land use are well established, they are often applied on a case by case basis, particularly in the context of regulatory takings and inverse condemnation. This ad hoc analysis introduces, if not an element of unpredictability, at least some variation in the law by jurisdiction. The need for greater predictability highlights the significance of including airport zoning as part of comprehensive land use planning. This report should be helpful to airport administrators, attorneys, board members, financial officers, community members in the vicinity of airports, realtors, and city and county zoning officials
