This book is on Recruitment Process to make it interesting by using recruitment tools for selection process as a whole for small and big companies  
The recruitment tools I have suggested here are very simple and can easily be customized and developed to suit the requirement of any company needs  
Examples shared are of varied departments at basic level but the process can be used for recruiting any level of staff  
Here I have tried to incorporate tools which can be used for ground levels fresher as well as middle management levels  
If one wants to assess any specific skill of a specific level all one needs to do is change the level of vocabulary or terms used and you will be surprised at the answers you receive from the person being interviewed  
Psychometric tests have been mentioned too for Senior levels  
You will get an idea of all kinds of assessments that one should be aware of and can explore while recruiting      **Assessment Administration** , 1951      **Handbook of Healthcare Delivery Systems** Yuehwern Yih, 2016-04-19
