As I progressed on my leadership training through Lamp The Institute for Leadership in Physical Therapy I ran into some resistance in completing my I ILP project there must be something about leadership that I was not getting So I went to my plan B What Leader or Leaders would I like to have dinner with and get into their brains and hearts Humm the Founding Fathers of the United States of America for they created a new unique government Dr W Cleon Skousen published The Five Thousand Year leap A Miracle That Changed the World This book is easy to read and brought the confusion of politics into clear focus Dr Skousen said many times that the Founder s success formula would solve nearly every problem we have in America today Really Can any knowledge be more helpful to the rising generation of Leaders in America The purpose of my book The Writings of an American Mother in 2010 is to encourage people to review our past our history as a country the 28 Principles of our Founding Fathers and how they relate to current issues then develop your own viewpoint through critical thinking and doing your own homework becoming an Active American Citizen Show More Show Less      **American**

**Government** George G. Bruntz,John Bremer,1969      **Courts and the Culture Wars** Bradley C. S. Watson,2002-01-01 For much of the second half of the twentieth century America s courts state and federal have injected themselves into what many critics consider to be fundamentally moral or political disputes By constitutionalizing these disputes many feel that the courts have reduced the ability of Americans to engage in traditional political modes of settling differences over issues that excite particular passion While legal discourse is well suited to choosing decisive winners and losers political discourse is perhaps more conducive to reasonable compromise and accommodation In *Courts and the Culture Wars* Bradley C S Watson has brought together some of America s most distinguished names in constitutional theory and practice to consider the impact of judicial engagement in the moral religious and cultural realms including such issues as school prayer abortion gay rights and expressive speech      *Hot Protestants* Michael P. Winship,2019-02-26 On fire for God a sweeping history of puritanism in England and America Begun in the mid sixteenth century by Protestant nonconformists keen to reform England s church and society while saving their own souls the puritan movement was a major catalyst in the great cultural changes that transformed the early modern world Providing a uniquely broad transatlantic perspective this groundbreaking volume traces puritanism s tumultuous history from its initial attempts to reshape the Church of England to its establishment of godly republics in both England and America and its demise at the end of the seventeenth century Shedding new light on puritans

whose impact was far reaching as well as on those who left only limited traces behind them Michael Winship delineates puritanism's triumphs and tribulations and shows how the puritan project of creating reformed churches working closely with intolerant godly governments evolved and broke down over time in response to changing geographical political and religious exigencies

**Sea Power and the American Interest** John F Morton, 2024-04-15 From the Civil War to the Great War the transatlantic commercial trading system that dated from the nation's colonial times continued in America By 1900 the sustainability of this Atlantic System was in the material interest of an industrial America on which its aggregate national prosperity depended The principal beneficiary of this political economic reality was the American moneyed interest centered in the Northeast with New York City at the heart Author John F Morton explains how this country came to put a value on commercial opportunities overseas in support of America's steel industry Europeans and Americans alike pursued informal empires for resource acquisition and markets for surplus capital and output Morton looks at how U S policy found consensus around the idea of empire taking stock of the opening of Latin American and Chinese markets to American commerce as a means for averting socially destabilizing economic depressions Republican administrations reflected Wall Street finance and America's other three Madisonian interests commercial manufacturing and agrarian with the Open Door and Dollar Diplomacy policies to establish fiscal protectorates in Central America and the Caribbean Undergirding Dollar Diplomacy was their commitment to a great navy that would be the insurance for an ongoing American interest that Dollar Diplomacy represented With the strategic arrival of the petroleum sinew and the Wall Street reassessment of the Open Door in China the Wilson administration tilted toward protecting American investments in the hemisphere notably in Mexico with a Big Navy With Wilson a progressive foreign policy establishment arrived while continuing to reflect the transatlantic internationalism of the Northeast moneyed interest As a twentieth century progressive institution the Navy would thus sustain an American expansion that was now progressive The Navy story from the Civil War to the Great War reveals a truth The foundational and dynamic sectors of a great nation's economic base its sinews give rise to policy consensus networks that drive national interest long term strategy and the characteristics of its elements of national power It follows that the attributes of sea power must be material expressions of those sinews allowing a navy better to serve as a sustainable and actionable tool for a great nation's interest
