Define an article audit review: This review is, to sum up, the quintessence of the article, its key contentions, and discoveries, and the writer's disposition towards the topic

2

Plan your work on the review: You should know precisely how you will compose your article review before you even read the article being referred to

3

Get a snappy look at the article: Peruse the article's title, abstract, headings

4

Read the article attentively: Deliberately read the article a few additional occasions

5

Retell the article to yourself: It is best to write an outline or a piece of free writing

6

Layout your review: Take a look at your synopsis to check whether the author was clear about every one of them

7

Think about a title for your composition: The title of your review should hint at its focus

8
