Advanced Calculus Second Edition David V Widder:

Advanced Calculus David Vernon Widder, 1989-01-01 Classic text offers exceptionally precise coverage of partial differentiation vectors differential geometry Stieltjes integral infinite series gamma function Fourier series Laplace transform much more Includes exercises and selected answers **Conjugate quasilinear Dirichlet and Neumann problems and a posteriori error bounds** John E. Lavrey, 1976 **New Foundations for Applied Electromagnetics: The Spatial Structure of Electromagnetic Fields** Said Mikki, Yahia Antar, 2016-05-31 This comprehensive new resource focuses on applied electromagnetics and takes readers beyond the conventional theory with the use of contemporary mathematics to improve the practical use of electromagnetics in emerging areas of field communications wireless power transfer metamaterials MIMO and direction of arrival systems The book explores the existing and novel theories and principles of electromagnetics in order to help engineers analyze and design devices for today's applications in wireless power transfers NFC and metamaterials This book is organized into clear and logical sections spanning from fundamental theory to applications promoting clear understanding through out This resource presents the theory of electromagnetic near fields including chapters on reactive energy spatial and spectral theory the scalar antenna and the morphogenesis of electromagnetic radiation in the near field zone The Antenna Current Green's Function Formalism is explored with an emphasis on the foundations the organic interrelationships between the fundamental operational modes of general antenna systems and the spectral approach to antenna to antenna interactions The book offers perspective on nonlocal metamaterials including the material response theory the far field theory and the near field theory [Invitation to Classical Analysis](#) Peter L. Duren, 2012 This book gives a rigorous treatment of selected topics in classical analysis with many applications and examples The exposition is at the undergraduate level building on basic principles of advanced calculus without appeal to more sophisticated techniques of complex analysis and Lebesgue integration Among the topics covered are Fourier series and integrals approximation theory Stirling's formula the gamma function Bernoulli numbers and polynomials the Riemann zeta function Tauberian theorems elliptic integrals ramifications of the Cantor set and a theoretical discussion of differential equations including power series solutions at regular singular points Bessel functions hypergeometric functions and Sturm comparison theory Preliminary chapters offer rapid reviews of basic principles and further background material such as infinite products and commonly applied inequalities This book is designed for individual study but can also serve as a text for second semester courses in advanced calculus Each chapter concludes with an abundance of exercises Historical notes discuss the evolution of mathematical ideas and their relevance to physical applications Special features are capsule scientific biographies of the major players and a gallery of portraits Although this book is designed for undergraduate students others may find it an accessible source of information on classical topics that underlie modern developments in pure and applied mathematics **NASA Technical Note** United States. National Aeronautics and Space Administration, 1976

Vector Calculus Susan Jane Colley, 2002 Appropriate for sophomore level courses in Multivariable Calculus A traditional and accessible calculus text with a strong conceptual and geometric slant that assumes a background in single variable calculus The text uses the language and notation of vectors and matrices to clarify issues in multivariable calculus It is designed to provide a greater challenge than the multivariable material typically found in the last four or five chapters of a three semester calculus text This challenge is balanced by clear and expansive writing and an interesting selection of material
