**Phlebotomy Exam Review** Ruth E. McCall, 2023-08-15 Phlebotomy Exam Review Eighth Edition provides a comprehensive review of current phlebotomy theory and offers an ideal way to study for phlebotomy licensing or national certification exams. It also makes for an excellent study tool for students taking formal phlebotomy training programs. By answering the questions in this review, students can test their knowledge and application of current phlebotomy theory. Theory questions address recent federal safety standards, Clinical and Laboratory Standards Institute (CLSI) guidelines, and the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) phlebotomist competencies when applicable. Questions are standard multiple choice like those used on national exams with choices that often test your critical thinking abilities. 2024 380 pages

**Acute Nursing Care** Ian Peate, Helen Dutton, 2014-08-01 Delays in recognising deterioration or inappropriate management of people in acute care settings can result in late treatment, avoidable admissions to intensive care units, and in some instances, unnecessary deaths. As the role of the nurse in healthcare settings continues to change and evolve, today's student nurses need to be equipped with the fundamental skills to recognise and manage deterioration in the patient in a competent and confident manner as you learn to become practitioners of the future. Using a body systems approach and emphasising the central role and function of the nurse throughout, this book provides a comprehensive overview of the essential issues in this important subject. Topics covered include recognition and identification of physiological deterioration in adults, identification of disordered physiology that may lead to a medical emergency linked to deterioration of normal function, relevant anatomy and physiology, pathophysiological changes, and actions that need to be taken immediately. Recognition and response, investigations, diagnosis, and management issues, and teaching and preventative strategies.
