**Leadership Skills in the Early Years** June O'Sullivan, 2010-06-01 June O Sullivan explores the concept of leadership particularly with regards to leading Early Years centres. In line with government initiatives there is growing pressure within the early years sector to create staff who can lead different types of childcare and family settings in order to address two main government targets. Firstly reducing poverty among families with small children and secondly increasing educational opportunities for children from disadvantaged backgrounds in order to give them a better start in life. Many say that for this to happen we need people who can lead an effective team of capable professional colleagues. This is no easy task in the modern Early Years market.
