Everyday and Academic Mathematics in the Classroom Mary E. Brenner, Judit N. Moschkovich, 2002 The monograph series is published by NCTM as a supplement to the Journal for Research in Mathematics Education (JRME). Each monograph has a single theme related to the learning or teaching of mathematics. Number 11 in the JRME monograph series, this monograph attempts to clarify what we mean by everyday and academic mathematics, to provide empirical analyses of what happens when we bring particular aspects of everyday practices into classrooms, and to consider how workplace practices relate to school mathematics.

The Balance Sheet, 1988 Judgment and Decision Making in Accounting Sarah E. Bonner, 2008 This unique first edition is the only book on the market that delivers a contemporary synthesis of both psychology and accounting literature related to judgment and decision making. Judgment and Decision Making in Accounting is structured around an innovative framework that provides a unique way of thinking about JDM projects and organizing JDM research. Developed based on many years of teaching and research on accounting JDM, this unique framework succinctly describes the key issues in accounting JDM research, enabling readers to more quickly assimilate the vast material related to those issues. The framework also provides a basis to help readers evaluate their own current JDM research ideas, as well as generate further research questions.
