Ecological Stewardship:

Environmental Stewardship Robert James Berry, 2006-03-13 Is stewardship a useful way of regarding our relationship with our environment or is it a dangerous excuse for plunder Is it possible for us to be effective stewards This book gathers together expositions of stewardship with criticisms of the concept and adds other contributions written especially for this collection

Principles of Ecosystem Stewardship F Stuart Chapin III, Gary P. Kofinas, Carl Folke, 2009-06-12 The world is undergoing unprecedented changes in many of the factors that determine its fundamental properties and their influence on society These changes include climate the chemical composition of the atmosphere the demands of a growing human population for food and fiber and the mobility of organisms and natural products cultural perspectives and information flows The magnitude and widespread nature of these changes pose serious challenges in managing the ecosystem services on which society depends Moreover many of these changes are strongly influenced by human activities so future patterns of change will continue to be influenced by society's choices and governance The purpose of this book is to provide a new framework for natural resource management a framework based on stewardship of ecosystems for human well being in a world dominated by uncertainty and change The goal of ecosystem stewardship is to respond to and shape change in social ecological systems in order to sustain the supply and opportunities for use of ecosystem services by society The book links recent advances in the theory of resilience sustainability and vulnerability with practical issues of ecosystem management and governance The book is aimed at advanced undergraduates and beginning graduate students of natural resource management as well as professional managers community leaders and policy makers with backgrounds in a wide array of disciplines including ecology policy studies economics sociology and anthropology

Ecological Stewardship Robert C. Szaro, William T. Sexton, 1999 This text addresses six ecological themes shifting public values expectations and laws social and cultural dimensions humans as agents of ecological changes biological and ecological dimensions economic dimensions and information collection and evaluation The set includes a graphically illustrated summary volume synthesizing the key scientific and management findings and conclusions of the six topics The book is accompanied by a CD containing the full text of the three volumes in PDF format searchable by table of contents and keywords

What is Urban Environmental Stewardship? Michele Romolini, 2012 Constructing a framework to convey the layered meanings of stewardship will help to focus and guide future research A cognitive mapping technique was used to elicit responses to the question What is environmental stewardship Semistructured interviews were conducted with representatives of nine Seattle environmental organizations a group of practitioners who collectively represent over 100 years of experience in the field Program planners and managers have particularly direct experiences of stewardship Cognitive mapping enables participants to explore then display their particular knowledge and perceptions about an idea or activity Analysis generated thematic structural representations of shared concepts Results show that the practitioners have multilayered perceptions of stewardship from

The Nature of Environmental Stewardship Johnny Wei-Bing Lin, 2016 Environmental issues appear deceptively simple science tells us what the problems are and how to solve them and for Christians the Bible motivates us to care for creation And yet both in society in general as well as in the Christian church in particular we cannot seem to agree on what to do regarding environmental issues In this book climate scientist Johnny Wei Bing Lin argues that determining the content of environmental stewardship far from being a straightforward exercise is a difficult and complex endeavor He sets forth a general taxonomy drawing from worldviews ethical theories science epistemology science policy studies politics and economics that can help us better understand what excellent creation care consists of and how to bridge the differences people have regarding environmental issues Dr Lin wants peace between folks who are well intentioned but unable to agree be they Christians or not Peace as we wrestle with science and Scripture over our stewardship of God's beloved creation Lin gives us well considered ways to sift competing views and supposed facts This book comes from a master teacher and irenic fellow struggler A very important synthesis of worldview driven informed arguments Terry Morrison Director Emeritus Faculty Ministry InterVarsity Christian Fellowship USA By carefully breaking environmental stewardship down into its component parts this book offers readers a framework to dialogue instead of debate the imperative of creation care Grappling with the fact that today's ecological and economic challenges cannot be contained by a simple ideology nor a single imagination Lin guides us toward both a practical synthesis of collective human wisdom and a higher level of conscientiousness in protecting all that God loves Kaleb Nyquist Steering Committee Member Young Evangelicals for Climate Action Johnny Wei Bing Lin BS and MS Stanford University PhD UCLA was Professor of Physics at North Park University where he remains Affiliate Professor of Physics and Engineering Currently he is Senior Lecturer and Director of Undergraduate Computing Education in the Computing and Software Systems Division at the University of Washington Bothell
