## 7th Grade Common Core Outsiders Unit:

Blending Instruction with Technology Michael Martin,2016-07-21 Blending Instruction with Technology is a book that offers educators guidelines and solutions for implementing blended learning in today's classrooms. There has been a strong push by many communities schools and educators to move to a 1:1 environment. However, once there, how does one teach or facilitate learning in such an environment? What are the researched best practices for implementing blended learning in classrooms? How do schools provide professional development to teachers to implement best practices in their classroom? Regarding the twenty year veteran who just recently mastered email, how do schools provide the proper guidance, training and support for him/her? This book aims to answer these questions and many more. This book is designed to be a blueprint for preparing staff members to be successful in a 1:1 environment. This book also focuses on providing students with a blended learning lesson that incorporates both cognitive and 21st Century Skills.

*No More Fake Reading* Berit Gordon,2017-07-07 For middle and high school teachers, it's one of today's most vexing problems: How do you motivate students with varied interests and little appetite for classic literature to stop faking their way through texts and start advancing as skilled, engaged readers? Independent reading is an important part of the answer, but it's just that a part of the whole. In this groundbreaking book, Berit Gordon offers the complete solution: a blended model that combines the benefits of classic literature with the motivational power of choice reading. With the blended model, teachers lead close examinations of key passages from classic texts, guiding students to an understanding of important reading strategies they can transfer to their choice books. Teachers gain a platform for demonstrating the critical reading skills students so urgently require, and students thrive on reading what they want to read. In this research-backed book, Gordon leads you step by step to classroom success with the blended model, showing the basics of getting your classroom library up and running, how to build a blended curriculum for both fiction and non-fiction units, keeping relevant standards in mind, tips and resources to help with day-to-day planning, ideas for selecting class novel passages that provide essential cultural capital, and bolster students' reading skills. Strategies for bringing talk into your blended reading classroom, how to reach the crucial learning goal of transfer, a practical, user-friendly approach for assessing each student's progress. *No More Fake Reading* gives you all the tools you need to put the blended model to work for your students and transform your classroom into a vibrant reading environment. Berit Gordon coaches teachers as they nurture lifelong readers and writers. Her path as an educator began in the classroom in the Dominican Republic before teaching in New York City public schools. She also taught at the Teachers College of Columbia University in English Education. She currently works as a literacy consultant in grades 3-12 and lives in Maplewood, New Jersey, with her husband and three children.
