Assessing Young Children Gayle Mindes, 2007 For courses in Assessment in early childhood education *Assessing Young Children* addresses theory and provides illustrations of appropriate practice for prospective teachers as well as discusses current

trends for experienced teachers It approaches assessment as an integral part of the teaching learning process Key components of the assessment system advocated include cultural sensitivity parent collaboration and a vision of inclusionary practice in all early childhood environments child care and school This book reflects the knowledge base of early childhood and early childhood special education *Methods of Teaching* Preston D. Feden, Robert Mark Vogel, 2003 METHODS OF TEACHING APPLYING COGNITIVE SCIENCE TO PROMOTE STUDENT LEARNING helps prospective teachers learn how to apply recent findings by cognitive scientists to their classroom practices in order to promote true conceptual change among their students The book focuses squarely on ways to bring about deep rather than surface learning to all students The authors use and model many of the teaching strategies they present focusing on major core concepts and utilizing a rich array of pedagogical features to help prospective teachers build a deep understanding of how people learn and what strategies they can use as teachers to help their students achieve long lasting comprehension Throughout the text the authors emphasize the need to change instruction in light of new findings from cognitive science Planning for instruction behavior management and technology are integrated into each chapter Exploring Science in Early Childhood Karen Lind, 2005 Exploring Science in Early Childhood makes teaching a basic understanding of science skills to young people more achievable and successful than ever In using this book to teach future educators such top universities as Harvard recognize that the activities and applications presented in developmental sequence strongly support children learning When put into practice the approaches espoused in this edition will enable children to construct the concepts and skills imperative for learning a basic understanding of science The same and skills also play an importance role in understanding mathematics and are closely related to reading and reading comprehension skills Developed in cooperation with teachers at each developmental level the concepts skills and instructional strategies are aligned with national standards in science principles and standards for mathematics and early childhood standards **Whole-Faculty Study Groups** Carlene U. Murphy, Dale W. Lick, 1998-07-23 This book whole faculty study groups their application and the underlying change principles necessary for such study groups to succeed The book provides numerous examples snapshots of real world situations and a detailed step by step practical methodology for the development of successful professional whole faculty study groups in schools Measurement and Assessment in Teaching Robert L. Linn, M. David Miller, 2005 For Test and Measurement courses this volume introduces prospective teachers to all of the elements of measurement and assessment that are essential to good teaching including the techniques needed to create use evaluate and interpret the full spectrum of both published and self created assessment vehicles Exceptional Child Education Resources, 2000 Course Design George J. Posner, Alan N. Rudnitsky, 2006 Bridging theory and practice in curriculum development Course Design A Guide to Curriculum Development for Teachers provides teachers with invaluable concepts and skills for planning effective courses The goal of the book is to help the reader become a flexible yet systematic curriculum planner by developing a greater awareness of the important

decisions to be made and the options available at each stage of decision making The authors begin with a set of guidelines for developing a course and then lead readers through a step by step process of developing an actual course or unit of their own For the seventh edition the authors have added A greater emphasis on planning for meaningful learning and understanding throughout the entire text further highlighting and making explicit the cognitive orientation of Course Design s approach A much expanded section on national and state standards standards based reform and how standards fit into the course design process Chapter 1 An expanded section on multiple intelligences Chapter 2 **Research in the Schools**, 2004 **Every Child a Learner** Aldene Fredenburg, Society for Developmental Education, Peterborough, NH., 1996 The main objective of this sourcebook is to support K 6 educators in creating child centered classrooms where all children can learn and all children can succeed **Rolling the Elephant Over** Pamela Brown Clarridge, Elizabeth M. Whitaker, 1997 Clarridge and Whitaker s challenge was to coordinate the design and implementation of a new elementary progress report that would provide not only a more consistent and equitable measure of student progress across an extremely diverse district but also promote better communication among parents students and teachers
