**First Year in a Multilingual University** Feng Ding, 2021-06-30 Although both school university transitions and cross border transitions have been widely explored comparatively little research has been conducted on those students who undergo both transitions at the same time This book reports on a longitudinal qualitative study investigating the major issues faced by nine Mainland Chinese students during their first year at a Hong Kong university from the perspective of learner autonomy It argues that the school university transition is especially challenging for students going through a cross border transition at the same time which usually involves a linguistic and cultural adjustment and challenges their autonomy in three domains managing their personal lives academic learning and English learning Adopting the perspective of autonomy enables us to better understand student transitions so that more appropriate support can be provided for this group Given its scope the book offers a valuable asset for educators at both the secondary and post secondary levels and underscores the need to help students bridge the gap between school and university and thus advance along the continuum of autonomy more smoothly It also has practical implications for students who are studying or intend to study abroad

*Poverty in the Midst of Affluence* Leo F. Goodstadt, 2014-12-01 Hong Kong is among the richest cities in the world Yet over the past 15 years living conditions for the average family have deteriorated despite a robust economy ample budget surpluses and record labour productivity Successive governments have been reluctant to invest in services for the elderly the disabled the long term sick and the poor while education has become more elitist The political system has helped to entrench a mistaken consensus that social spending is a threat to financial stability and economic prosperity In this trenchant attack on government mismanagement Leo Goodstadt traces how officials have created a new poverty in Hong Kong and argues that their misguided policies are both a legacy of the colonial era and a deliberate choice by modern governments and not the result of economic crises This provocative book will be essential reading for anyone wishing to understand why poverty returned to Hong Kong in this century The book has been thoroughly revised and updated for this new paperback edition Leo Goodstadt has identified the New Poor as those made vulnerable through diminishing access to essential services and opportunities The culprits are misguided policies and the callous and uncaring decisions of those in power This compelling critique carries weight and demands a response Christine Fang Former Chief Executive of The Hong Kong Council of Social Service This is a critical reflection on Hong Kong's path of social development and a most discerning analysis of the Third World mentality espoused by the government and the business community in the area of social welfare Lui Tai lok Chair Professor of Hong Kong Studies The Hong Kong Institute of Education Welfare spending was like pouring sand into the sea to reclaim land thought one Chief Executive Governments restrained social spending based on that skewed view This book is meticulously researched and painfully insightful It is a masterly chronicle of Hong Kong's social welfare policy Anna Wu Non Official Member of the Executive Council HKSAR
