2012 State Mathcounts Sprint Round:

Mad for Speed Elsa A. Nystrom, 2013-06-13 This book covers Joan Newton Cuneo's life and her roles from 1905 to 1915 as the premier female racer in the United States and spokeswoman for women drivers and good roads. Beginning with her family history and marriage to Andrew Cuneo, it traces her life in New York society, the birth of her children, and Joan's growing interest in automobile touring and racing and partnership with Louis Disbrow, her racing mechanic. The book covers Joan's experiences in three Glidden Tours, including her notes on the 1907 tour, her first races, and her rivals. It also looks at the growth and change of automobile culture and the battles for control of racing among the American Automobile Association, the Automobile Club of America, and the American Automobile Manufacturers Association, which ended in banishing women racers shortly after Joan's greatest racing victories at New Orleans in 1909. The book then follows Joan's attempts to continue racing, the end of her marriage, her move to the Upper Peninsula, and her remarriage and death. The book also includes a chapter on her female rivals in racing and touring. *Evolving Perspectives on ICTs in Global Souths*

His stick figure drawings about science, technology, language, and love have an enormous dedicated following, as do his deeply researched answers to his fans' strangest questions. The queries he receives range from merely odd to downright diabolical: What if I took a swim in a spent nuclear fuel pool? Could you build a jetpack using downward-firing machine guns? What if a Richter 15 earthquake hit New York City? Are fire tornadoes possible? His responses are masterpieces of clarity and wit, gleefully and accurately explaining everything from the relativistic effects of a baseball pitched at near the speed of light to the many horrible ways you could die while building a periodic table out of all the actual elements. The book features new and never-before-answered questions along with the most popular answers from the xkcd website. What If is an informative feast for xkcd fans and anyone who loves to ponder the hypothetical. **These Truths** Jill Lepore, 2018-09-18 Nothing short of a masterpiece. NPR Books. In the most ambitious one-volume American history in decades, award-winning historian Jill Lepore offers a magisterial account of the origins and rise of a divided nation. Widely

hailed for its sweeping sobering account of the American past New York Times Book Review Jill Lepore's one volume history of America places truth itself a devotion to facts proof and evidence at the center of the nation's history The American experiment rests on three ideas these truths Jefferson called them political equality natural rights and the sovereignty of the people But has the nation and democracy itself delivered on that promise These Truths tells this uniquely American story beginning in 1492 asking whether the course of events over more than five centuries has proven the nation's truths or belied them To answer that question Lepore wrestles with the state of American politics the legacy of slavery the persistence of inequality and the nature of technological change A nation born in contradiction will fight forever over the meaning of its history Lepore writes but engaging in that struggle by studying the past is part of the work of citizenship With These Truths Lepore has produced a book that will shape our view of American history for decades to come *The Value Line Investment Survey*, 2008
