**2024 Review Of The Fund's Transparency Policy And Open Archives Policy—Background Paper 1 On Key Trends** International Monetary Fund. Strategy, Policy, & Review Department, 2024-11-25 On November 15 2024 the IMF's Executive Board concluded the Review of the IMF's Transparency Policy and Open Archives Policy and approved a number of reforms. As an international institution making important documents available to the public on timely basis enhances the IMF's credibility, accountability and effectiveness and is critical to fulfill its mandate of promoting global economic and financial stability. While transparency at the IMF is achieved through a range of policies and practices the Transparency Policy and the Open Archives Policy form the core elements of the IMF's transparency framework. The Fund has come a long way since the inception of these policies in the early nineties. Most Board documents are now published more quickly and under more consistent and evenhanded application of modification rules. The information available in the Fund's archives has increased and is more easily accessible to the public. While experience suggests that these policies are effective in delivering on their objectives the landscape in which the Fund operates has evolved since these policies were last reviewed in 2013. In a more interconnected and shock prone world the pace with which policymakers need to make decisions has accelerated and the expectations of stakeholders on the availability and timeliness of the Fund's analysis and policy advice has grown. Against this backdrop the 2024 Review of the IMF's Transparency Policy and Open Archives Policy focuses on targeted reforms to i support faster publication of board documents and communications of Board's decisions ii strengthen the rules and processes to modify Board documents prior to publication and iii allow faster release of some documents in the Fund's archives accessible to the public. The reforms further clarify the scope and objectives of these policies their implementation processes and how to strengthen knowledge sharing. The review was supported by data analysis as well as surveys and consultations with key stakeholders including Executive Directors country authorities IMF missions chiefs and civil society organizations as detailed in the three background papers accompanying this 2024 review.
