Hydroclimatic Extremes in the Middle East and North Africa Ahmed Mohammed Hussain El Kenawy, El Sayed Mohamed Robaa, Mohammed Magdy Mustafa Torab, Mohamed Hereher, 2024-05-29 Hydroclimatic Extremes in the Middle East and North Africa Assessment Attribution and Socioeconomic Impacts focuses on assessing the current situation of hydroclimatic extremes in the MENA region with particular emphasis on dry and wet extreme events The results of the rapidly changing atmospheric and oceanic situations of these extremes will be addressed presenting examples for the environmental socioeconomic and cultural impacts of these events in the region and evaluating the current ability to monitor and adapt to such events as well as exploring the potential use of advanced geospatial techniques in improving current understanding of these extreme events The book utilizes a multidisciplinary approach with various state of the art methods approaches and analytical techniques in environmental meteorological and hydrological sciences providing case studies from the Middle East and North Africa It will provide a solid basis for scientists to assess the validation of several research methods in the region and may be applicable to other regions as climate change continues to

cause increasing aridity worldwide The case studies presented will reflect the multifaceted character of hydrometeorological extremes in the region with representative examples for the environmental socioeconomic and cultural impacts of climate change Therefore this book is a valuable source for climatologists meteorologists hydrologists geographers and water resources scientists Thoroughly details the effects of climate variability in the Middle East and North Africa a hotspot region of climate change vulnerability Examines changes in hydroclimatic extremes at different spatial scales ranging from local assessments to investigations that cover the entire region Provides a comprehensive assessment of hydrometeorological feedback to current and future climate change in the MENA region Fills the current gap in the literature concerning the response of arid and semiarid regions to climate change with particular emphasis on the MENA region

Canones: The Art of Harmony Alessandro Bausi, Bruno Reudenbach, Hanna Wimmer, 2020-11-23 The so called Canon Tables of the Christian Gospels are an absolutely remarkable feature of the early late antique and medieval Christian manuscript cultures of East and West the invention of which is commonly attributed to Eusebius and dated to first decades of the fourth century AD Intended to host a technical device for structuring organizing and navigating the Four Gospels united in a single codex and in doing so building upon and bringing to completion previous endeavours the Canon Tables were apparently from the beginning a highly complex combination of text numbers and images that became an integral and fixed part of all the manuscripts containing the Four Gospels as Sacred Scripture of the Christians and can be seen as exemplary for the formation development and spreading of a specific Christian manuscript culture across East and West AD 300 and 800 In the footsteps of Carl Nordenfalk s masterly publication of 1938 and few following contributions this book offers an updated overview on the topic of Canon Tables in a comparative perspective and with a precise look at their context of origin their visual appearance their meaning function and their usage in different times domains and cultures
