## **The Road to Unfreedom** Timothy

Snyder, 2018-04-05 From the author of international bestseller On Tyranny this prescient analysis of Russia's ongoing interference in the West is now more relevant than ever One of the best brisk conceptually convincing account of democracy's retreat in the early years of 21st century Guardian The past is another country the old saying goes The same might be said

of the future But which country For Europeans and Americans today the answer is Russia In this visionary work of contemporary history Timothy Snyder shows how Russia works within the West to destroy the West by supporting the far right in Europe invading Ukraine in 2014 and waging a cyberwar during the 2016 presidential campaign and the EU referendum Nowhere is this more obvious than in the creation of Donald Trump an American failure deployed as a Russian weapon But this threat presents an opportunity to better understand the pillars of our freedoms and face the choices that will determine the future equality or oligarchy individualism or totalitarianism truth or lies A brilliant and disturbing analysis which should be read by anyone wishing to understand the political crisis currently engulfing the world Yuval Noah Harari bestselling author of *Sapiens*

### *Urbanization and Industrialization for Africa's Transformation*, 2017

The 2017 Economic Report on Africa focuses on the linkages between industrialization and urbanization Urbanization is one of Africa mega trends with profound implications for the social economic environmental dimensions of growth and transformation Theory and experience demonstrate that industrialization and urbanization can be mutually reinforcing processes It is therefore imperative to explore the linkages between urbanization and industrialization given the profound implications for structural transformation in Africa So far current policy narratives and frameworks on structural transformation and industrialization in Africa have largely failed to factor in the spatial and urban dimensions of industrialization and in particular the advantages presented by productivity enhancement and agglomeration effects generated by cities Yet the nexus between urbanization and industrialization is of particular relevance for Agenda 2063 and the 2030 Agenda on Sustainable Development Both agendas recognize urbanization as a critical factor for sustainable development It is also important to consider urbanization and industrialization in light of Africa's engagement with the Third United Nations Conference on Housing and Sustainable Urban Development Habitat III to be held in Quito Ecuador in

October 2016 In this context African policy makers have clearly recognized urbanization as an engine of structural transformation for inclusive and sustainable growth Handbook of Applied Hydrology, Second Edition Vijay P.
