Thailand: 2021 Article IV Consultation-Press Release; Staff Report; and Statement by the Executive Director for Thailand International Monetary Fund. Asia and Pacific Dept, 2021-06-03 A nascent recovery is underway in Thailand following the COVID 19 downturn Ample policy buffers underpinned by judicious management of public finances allowed the authorities to implement a multipronged package of fiscal monetary and financial policies to mitigate the COVID 19 impact on households businesses and the financial system This together with rigorous containment measures led to a successful flattening of the infection curve during most of 2020 Nevertheless the pandemic has taken a large toll on the economy potentially inducing long term scarring and increasing inequality

Czech Republic International Monetary Fund. European Dept., 2018-06-29 This 2018 Article IV Consultation highlights that Czech Republic's growth has been strong broad based and job rich The economy grew at 4.4 percent in 2017 led by strong domestic demand The unemployment rate fell to a record low of 2.3 percent in April 2018 even with increased participation Meanwhile headline and core inflation are close to the target of 2 percent Growth is projected to remain strong this year at 3.7 percent but labor shortages are putting constraints on future

growth In the near term a decline in global trade is a major risk for a small economy highly dependent on external demand particularly from the euro area but also indirectly from other regions given how tightly integrated is the Czech economy into supply chains
