## 2014 History Past Paper G12:

*Preserving the Past* Julia Horne, Stephen Garton, 2017-03-20 The Dawkins reforms of the late 1980s and the creation of the Unified National System roused passions at many universities across the nation over fears for the academic enterprise and Australia's system of free public university education. With much at stake the Dawkins reforms became a hot topic of discussion across university campuses and even between Vice Chancellors and state education ministers. Vice Chancellors were threatened with motions of no confidence, staff argued furiously against change and students protested against fees yet mostly to no avail. The reforms were introduced and universities became subject to new ways of funding by the Commonwealth that changed the way higher education was organised in Australia. This volume tells the story of the Dawkins reforms at Australia's oldest university the University of Sydney and the unlikely alliance between the University's Vice Chancellor and the New South Wales government in the scramble for more students. Between 1988 and 1996 the University grew exponentially. At the same time it strove to preserve its honoured past despite profound change. Did this desire to preserve an older tradition compromise its effort to master the future? *Card-Carrying Christians* Rebecca C.

Bartel, 2021-05-24 In the waning years of Latin America's longest and bloodiest civil war the rise of an unlikely duo is transforming Colombia. Christianity and access to credit. In her exciting new book Rebecca C. Bartel details how surging evangelical conversions and widespread access to credit cards, microfinance programs and mortgages are changing how millions of Colombians envision a more prosperous future. Yet programs of financialization propel new modes of violence. As prosperity becomes conflated with peace and debt with devotion, survival only becomes possible through credit and its accompanying forms of indebtedness. A new future is on the horizon but it will come at a price. **Yearbook of**

**International Organizations 2014-2015, Volumes 1a & 1b (Set)** Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims, activities and events. George

Washington on Coins and Currency Heinz Tschachler, 2020-08-13 George Washington is the most popular subject on coins, medals, tokens, paper money and postage stamps in America. Attempts to eliminate one dollar bills from circulation, replacing them with coins, have been unsuccessful. Americans' reluctance to part with their Georges are beyond rational considerations but tap into deep felt emotions. To discard one dollar bills means discarding the metaphorical Father of His Country, Alexander Hamilton. The nation's first Secretary of the Treasury said that monetary tokens were vehicles of useful impressions. This numismatic history of George Washington traces the persistence of his image on American currency. These images are mostly from the late 18th century. This book also offers a close look at the pictorial tradition in which these images are rooted.
