**The Palgrave Handbook of Language Policies in Africa** Esther Mukewa Lisanza, Leonard Muaka, 2024-07-08 This handbook explores language policies and their impacts in Africa examining the different language policies in each country from pre colonial to post colonial times. Most African countries are multilingual apart from a handful which are said to be quasi monolingual. The authors in this handbook investigate language policy in education, media, legal, courts, government documents and other public domains and show how these policies shape learning and delivery of services to the citizens. The volume also pays special attention to the roles assigned to minority languages in Africa most of which are endangered. The contributions also investigate how these language policies are influenced by the history of colonialism and language attitudes emanating from colonial rule. This handbook will be of interest to a diverse audience of readers including those interested in African languages, language planning and policy and African history and education.

*When Political Transitions Work* Fanie du Toit, 2018-07-27 In *When Political Transitions Work* Fanie du Toit develops a coherent and versatile theory of reconciliation as interdependence based on the assumption that a state's success is inextricably linked to their enemies and a policy of mutual well-being is the surest and shortest path to prosperity and peace for both.

**Why We Kill** Karl Kemp, 2024-03-02 Why do so many South Africans prefer taking the law into their own hands to relying on the police? Why are those who do so often cheered or sympathised with? Of the unprecedented 27 000 recorded murders in South Africa in 2022 at least 1 894 or 7 per cent were attributed to mob justice and vigilantism more than double the number from five years before. In the first nine months of 2023 a further 1 472 mob justice deaths had already been registered. Mob justice is nothing new but in recent years it has taken on an undeniably desperate, furious edge. From the breathtakingly violent Zandspruit massacre in May 2021 to the killings during the July unrest two months later to the march of Operation Dudula across the nation in 2022, vigilantism and the condoning of it has never before captured the zeitgeist of South Africa so sharply. What has changed in the past few years and what does it augur for the future? Following three recent cases of mob justice from the hellish metropolitan townships of Gauteng to the far-flung bushveld of northern Limpopo and drawing on extensive research and interviews, *Why We Kill* explores the roots, realities and consequences of South Africa's current crisis of vigilantism.

*Transition and Justice* Gerhard Anders, Olaf Zenker, 2014-12-23 *Transition and Justice* examines a series of cases from across the African continent where peaceful new beginnings were declared after periods of violence and where transitional justice institutions helped define justice and the new socio-political order. Offers a new perspective on transition and justice in Africa, transcending the institutional limits of transitional justice. Covers a wide range of situations and presents a broad range of sites where past injustices are addressed. Examines cases where peaceful new beginnings have been declared after periods of violence. Addresses fundamental questions about transitions and justice in societies characterized by a high degree of external involvement and internal fragmentation.
