## Grade 4 Reading Comprehension Worksheet

### Alice in Wonderland

Read the story. Then answer the questions.

It was a warm summer day and Alice was getting bored sitting beside her sister, suddenly, a little White Rabbit with pink eyes ran in front of her shouting, "Oh dear, I'm late," and then disappeared down a rabbit's hole. "I must find out why he's in such a hurry!" cried Alice. She ran to the rabbit's hole and peeped through the entrance. The hole dropped suddenly and Alice fell. Finally she landed in a narrow hallway with doors of many sizes. On a table, Alice found a tiny gold key and a green bottle that said "DRINK ME" she drank it. Alice began to shrink until she was no bigger than a doll. She opened the door and quickly ran through it. "What a splendid garden!" she exclaimed. But the excitement soon wore off. "I want to be big again," she shouted. Alice went looking for help. Soon, she saw a green caterpillar. He was sitting on the top of a large mushroom. "One side make you big, the other side make you small, the mushroom," he answered. Alice ate a piece of the mushroom. "Thank goodness, I'm growing!" Alice continued her walk. In the middle of a field the Queen of Hearts was playing croquet. "Have you ever played croquet?" the Queen asked Alice. "Yes," Alice answered. "Play with me!" ordered the Queen. "And let me win or I'll have your head!" "Off with her head!" cried the Queen. Alice felt someone touch her shoulder, "Wake up. You've been sleeping for too long," said her sister softly. "I had a strange dream," said Alice.

Answer each question.

1. What Alice saw when she was sitting with her sister?
2. Did Alice find out the Rabbit's hole?
3. What did happen when Alice drink the green bottle?
4. Who did help Alice and how?
5. What she said after eating mushroom?
6. Who was in the middle of the field and what she asked to Alice?

**The Metalinguistic Mind** Sergio Melogno, Maria Antonietta Pinto, 2026-01-01 This book is about metalinguistic awareness MLA a broad area whose relevance has been acknowledged by several disciplines The authors treat the topic from three main perspectives developmental methodological and clinical They begin by outlining the main historical developmental models and the way metalinguistic development is intertwined with such factors as literacy bilingualism executive function and Theory of Mind They then proceed to consider a series of methodological issues related to the assessment of MLA based on the possible variation of research objectives tools and designs and finally face the metalinguistic challenges experienced by children and adults with neurodevelopmental disorders Throughout the three sections of the book that develop these perspectives a common thread can be recognized which justifies the title The metalinguistic mind By this expression the authors mean a way of reasoning on form content relationships that applies transversally to phonological morphological syntactical semantic and pragmatic aspects of language This process begins at preschool age with active forms of curiosity about forms and meanings of words using explicit language to comment on language often revealing an awareness of conflicts between linguistic forms and showing the need to find consistent solutions to reconcile these linguistic conflicts This argumentative attitude goes much beyond the application of linguistic rules or the use of metalanguage and may manifest itself even when unrequested The authors insist on the conflictual aspect inherent in all metalinguistic tasks Accordingly metalinguistic assessment should point to the consistency with which these conflicts are reconciled on explicit grounds This is where metalinguistic development and methodology can converge on the condition that both researchers and examiners bring to light those capabilities to argue about structural aspects of language Lastly even in the clinical conditions described by the authors despite evident language difficulties recent treatments have shown very interesting possibilities to enhance basic linguistic abilities and promote further improvements toward a meta level This complex interplay between metalinguistic development in typical children assessment methodology and the potentialities that open up in atypical conditions underscores the concept of metalinguistic mind *Her World of Darkness and Pain* Laketta Lowery, 2012-04-05
