### We Need Sharks

Sharks may be scary to many people, but they play a very important role in the world's oceans. One reason we need sharks is that they keep food webs in balance. Since sharks are the top predators in the ocean food chain, without them the whole ecosystem would become unbalanced. Another reason is that sharks keep their groups of prey healthy. Sharks often eat fish that are sick or weak and this helps prevent diseases from spreading. It also allows the stronger fish to breed.
