

Fourth Grade Pacing Guide Weeks 1-9

Week	Unit and Topic	Item Completed
Operations and Algebraic Thinking Solve real-world problems with whole numbers and whole problems.		
1	Represent a multiplicative equation and comparison, e.g., interpret $56 = 8 \times 7$ as a statement that 56 is 8 times as many as 7 and 7 times as many as 8. Represent word problems of multiplicative comparison as multiplicative equations.	
2	Model a division word problem involving multiplicative comparison, e.g., for any two given quantities, determine which is smaller for the unknown number to represent the problem, identifying multiplicative comparison from context.	
3-4	Identify unknowns and unknowns placed with whole numbers and finding whole number answers using the four operations, including problems in which one or more quantities are unknown. Represent these problems using equations with a whole number for the unknown quantity, reason for some solutions of problems using mental computation and estimation strategies, including rounding.	
Number and Operations in Base Ten Develop understanding for multi-digit numbers.		
5-6	Recognize that in a multi-digit whole number, a digit is one place (ten times) less than what it represents in the place to its right. For example, recognize that 700 is 10 times as many as 70 and 10 times as many as 7.	
Number and Operations: Fractions Build understanding of fraction equivalence and ordering.		
7	Explain why a fraction is less than, equal to, or greater than another fraction by using visual models, and identify how the numerator and denominator affect the size of the fraction. Use visual models to compare and order fractions.

Conversation Starter Steve C. McCullar, 2023-02-08 Conversation Starter Let s Talk Business Teaching and Training in Churches By Steve C McCullar Are your business meetings at church unproductive Do your leadership development programs need to be developed Are you lacking experienced teachers and trainers and only using the volunteers that are available and have no program to build them up Have you ever had those tough conversations about your church s needs in the areas of business teaching and training Motivational speaker corporate trainer and business professor Steve McCullar talks about starting those conversations With over 20 years of teaching and training experience in

academic and corporate settings along with experience working in ministry and developing church programs Steve uses biblical principles to start conversations Through stories humor and practical tips and strategies he demonstrates the importance of organizational alignment within the churches especially in the area of learning and development Among these pages you ll discover topics about Why Jesus was called the Master Teacher and not the Master Preacher Dealing with church folk who only want to hear but don t want to do The importance of teachers and trainers in your church Why your church meetings have increased socializing but decreased results Pastoral relationships with the teachers and trainers and pitfalls for all Teaching and Training are ministries While many shy away from what they call a corporate approach this book demonstrates through scripture how God is a businessman Be prepared to put away the thinking that the church should not operate with standard business practices But also be prepared to let go of the business practices that you encounter outside of the church as those negative unproductive and sometimes divisive practices do not have to continue within the church This book is an excellent resource for teachers trainers and even pastors because it will help to identify areas that need to be discussed Don t shy away from the conversations Catalog of Audiovisual Materials for Learning Disabilities Suburban
