4th Grade Writing Assessment:

Writing Assessment Research Report Vicki Fredrick, 1979 Making the Grades Todd Farley, 2011-01-01 In this alternately amusing and appalling expos of the standardized test industry fifteen year veteran Todd Farley describes statisticians who make decisions about students without even looking at their test answers state education officials willing to change the way tests are scored whenever they don't like the results and massive multi national for profit testing companies who regularly opt for expediency and profit over the altruistic educational goals of teaching and learning Although there are absurd moments as when Farley and coworkers had to grade students based on how they described the taste of their favorite food the enormous importance of standardized tests in the post No Child Left Behind era make this no laughing matter This book is dynamite The nice personal voice makes it utterly accessible and enticing wholly apart from the terribly important ammunition it provides to those of us in the testing wars at national and local levels Jonathan Kozol author of *Savage Inequities* **Resources in Education**, 2000-04 **Language Skills and Writing Assessment, Grade 3** Roger C.
