

RESEARCH PAPER

TAKING NOTES

You will take notes while researching your topic. Write the information you find on notecards. Each notecard should focus on one main idea and have 1-3 sentences written on it. Below is an example of what notecards should look like.

BOOK EXAMPLE

Source: Yosemite National Park
Description:

Yosemite Valley and the Mariposa Grove were... The land was put under the control of some protected public land.

RESEARCH

BOOKS

Books can be in print from the library, or they may be full text from online. Some books may be entirely about the topic or they may only have a few pages about the topic. Both options work well.

INTERNET

You may use a variety of websites for your research, but all the info must be credible. The most credible information will come from websites ending in .gov, .edu, and .org. There are some exceptions to this rule including websites for National Geographic, The History Channel, etc. It is important to evaluate any website you are using. Be sure to look at the following:

- How recent is the information?
- Who wrote the article/information?
- Is there contact information?
- Does the information match other sources you found?

RESEARCH DATABASE/RESOURCE

Another great source is a database. Databases often can be accessed through a school or library. Databases include encyclopedia entries, newspapers, and magazines. A resource encyclopedia is also a good source of information. These can be found in school and local libraries.

TIME TO DRAFT

Now that you have finished your notecards and completed an outline, you can start writing your rough draft. Use the tips on the next few pages to guide your writing.

WRITING A PARAGRAPH

Begin each body paragraph with a topic sentence. Then, add 3-4 sentences that support your topic sentence. These sentences should include additional facts and descriptions that allow the reader to visualize the topic in their minds. Finally, finish each paragraph with a transition sentence.

EXAMPLE

4 supporting sentences

topic sentence

Many animals love the environment here.

Clark's Nutcracker, a bird, eats insects, flesh from dead animals, berries, and pinecone seeds. A single bird can store up to 18,000 seeds in a single season. Another type of bird, the Pinnipeds, is the only bird to live in the park during the winter. Other animals such as wolves, mountain lions, and bighorn sheep live here.

There are not only animals, but plants as well.
