O'Donnell, Margo Wood, 1999 Becoming a Reader A Developmental Approach to Reading Instruction Second Edition is intended as a basic developmental reading text for preservice and in service teachers It has been our experience in teaching undergraduate and graduate students in education that a developmental perspective of literacy learning provides a helpful framework for understanding the process We have found that most textbooks on reading methods are organized topically with chapters on word identification comprehension study strategies use of basal readers literature and classroom organization Becoming a Reader is organized differently We use a stage model of reading development to describe how

children become skilled readers Specific topics such as word identification and comprehension are discussed within this broader framework The text represents a synthesis of current thinking about how literacy is acquired We have endeavored to produce a reader friendly text by providing concise descriptions of the various aspects of literacy learning and instruction supplemented by examples and case studies To avoid overburdening the reader with lengthy literature reviews have have cited only the most current and relevant sources to document and support the viewpoints presented As you read the text bear in mind that we regard literacy learning as a language learning process that is best acquired through the functional purposeful use of print The instructional methods we advocate reflect this basic premise *Natl Te Gr K Vol 2 Trophies* 2003 HSP,2001 Set for classroom use in kindergarten in teaching reading no student textbook issued by publisher for this grade level **Children's Literature in the Elementary School** Charlotte S.
