**Gangland: The Revised Edition** Mark Davis, 1999-07-01 Panics over the culture wars political correctness and victim feminism rap music ecstasy and body piercings our cultural landscape is currently peppered with examples of a desperately backward looking

stasis and a fearful hanging on In Gangland Mark Davis analyses the dated ideals and assumptions of Australia's cultural establishment and their near monopoly on cultural debate Who are these people What do they do How is their influence affecting public forums and the media Where does that leave the young people of today Davis's irreverent prose cuts across the moral panics and anxieties that characterise Australian culture to detect a deep seated fear of change a fear that is often expressed as hostility towards youth Gangland names names and maps networks laying bare the discrepancies between reality and the images peddled by some of Australia's most popular thinkers questioning the ideas that have characterised Australia in the nineties Deserves to become a manifesto for a disenfranchised generation Australian Financial Review Finally somebody on the side of late teens and twentysomethings in Australia a brilliant argument of a book Adrian Smart Cream Gangland has sparked a valuable debate one which I've been looking forward to for years Kathy Bail Australian Book Review

*The Five Walking Sticks* Henry R. Lew, 2000 *The Five Walking Sticks* describes the life of Maurice Brodzky a man who was very well known in Melbourne from 1885 to 1903 His story is most unusual and certainly more fascinating than many others that relate to the rich and famous and the reader certainly does not miss out on the rich and famous by travelling through the pages of Maurice's life But *The Five Walking Sticks* is much more than the life of a solitary human being It is a course of study a curriculum of history anthropology and civilisation which physically takes you into one of the most astonishing places on earth the city that the British journalist George Augustus Sala dubbed marvellous Melbourne in 1885 That we know so little of Maurice today is because rich and powerful opponents helped sanitise Melbourne's history of him and later day historians continued their omission Michael Cannon in *The Land Boomers* was the first exception Indeed Cannon went so far as to describe Brodzky's muckraking exposes of the land boom and bust period as a record of individual public service which it is safe to say has never been surpassed anywhere in the world The world is fortunate that sufficient information has survived to make a comprehensive book possible

**Offshore** Madeline Gleeson, 2016-05-01 What has happened on Nauru and Manus since Australia began its most recent offshore processing regime in 2012 This essential book provides a comprehensive and uncompromising overview of the first three years of offshore processing since it recommenced in 2012 It explains why offshore processing was re-established what life is like for asylum seekers and refugees on Nauru and Manus what asylum seekers refugees and staff in the offshore detention centres have to say about what goes on there and why the truth has been so hard to find In doing so it goes behind the rumours and allegations to reveal what is known and what still is not known about Australia's offshore detention centres

**The Content Makers** Margaret Simons, 2007-09-03 In *The Content Makers* Margaret Simons explains the changes taking place in the Australian media She analyses audiences our major media organisations the role of government and the implications of all of these for our society and our democracy Her examination leads her to the conclusion that the challenges facing the content providers in the modern world are part of a broader striving a very old struggle we might call it the search for meaning The big media businesses may or may not

survive into the future but content certainly will because we need it and have always needed it The Content Makers delivers a visceral understanding of how modern media works gives a plain language explanation of new media and provides straightforward information on recent changes to ownership legislation and what they mean But most importantly it suggests a vision for the future a new way of looking at the role of the content makers and how they and their audiences might find new hope and purpose in the future
