Winner of the Ralph Gomory Prize of the Business History Conference. Risk is a capacious term used to describe the uncertainties that arise from physical, financial, political and social activities. Practically everything we do carries some level of risk: threats to our bodies, property and animals. How do we determine when the risk is too high? In considering this question, Arwen P. Mohun offers a thought-provoking study of danger and how people have managed it from pre-industrial and industrial America up until today. Mohun outlines a vernacular risk culture in early America, one based on ordinary experience and common sense. The rise of factories and machinery eventually led to shocking accidents which she explains. Risk management experts and the gospel of safety sought to counter. Finally, she examines the simultaneous blossoming of risk-taking as fun and the aggressive regulations that follow from the consumer products safety movement. Risk and society: a rapidly growing area of historical research interests. Sociologists, psychologists and other social scientists. Americans have learned to tame risk in both the workplace and the home. Yet many of us still like amusement park rides that scare the devil out of us; they dare us to take risks. Pioneers, Engineers, and Scoundrels Beverly Rae Kimes, 2004-11-30 2005 Thomas McKean Memorial Cup Winner. Voted most important original research in automobile history by The Antique Automobile Club of America. Best Of Books Winner 2005 International Automotive Media Awards. Author Beverly Rae Kimes 2005 International Automotive Media Award for Lifetime Achievement. Honorary. This cast of characters provides the lens through which award-winning author Beverly Rae Kimes focuses on the early years of the American automobile industry. While some names, Ford, Dodge, Buick and more, are easily recognized, this book also introduces snapshots of lesser-known but vitally important actors in this dramatic saga. The famous, the infamous and the unknown are brought together by their common dedication to this great invention and
