**Creating a Scene in Corinth** Reta Halteman Finger,George D. McClain,2013-05-16 Creating a Scene in Corinth imaginatively draws readers into Chloe's house church which has just received a letter from their church planter the apostle Paul Using group simulation the book brings to life scholarly research on how the gospel penetrated the Roman Empire As participants role play early believers and debate with each other they gain new insights and will never read 1 Corinthians the same way again First century Corinthians were just as human as church people today They did not consider Paul's letters authoritative Scripture when he wrote them so lively group discussion and debate are encouraged This method of Bible study works for many levels from youth groups to Sunday school classes or in college and seminary courses SUPPLEMENTARY WEB RESOURCES A Visit to Ancient Corinth slide presentation 9 MB Time Travel to Ancient Corinth slide presentation 12 MB Publicity Announcement for Adult Sunday School Simulation of 1 Corinthians 64 KB Representative Speeches from Chloe's House Church 66 KB Worshiping with the Corinthians 684 KB A Visitor's Guide to Corinth 59 KB Extra Material for Character Development in Corinth 64 KB Using Creating a Scene in Corinth A Simulation in College or Seminary 123 KB Corinthian Characters in Chloe's House Church 104 KB *Malebranche: The Search After Truth* Nicolas Malebranche,Paul J. everyday health wellbeing and community In sharp contrast to the condemnation of the tobacco industry and its place in contemporary public health discourse the book considers tobacco in a more nuanced light as an agent both of enlightenment and destruction Exploring the role of tobacco in the lives of indigenous peoples The Master Plant offers an important and unique contribution to this field of study through its focus on lowland South America the historical source region of this controversial plant yet rarely discussed in recent scholarship The ten chapters in this collection bring together ethnographic accounts key developments in anthropological theory and emergent public health responses to indigenous tobacco use Moving from a historical study of tobacco usage covering the initial domestication of wild varieties and its value as a commodity in colonial times to an examination of the transcendent properties of tobacco and the magic symbolism and healing properties associated with it the authors present wide ranging perspectives on the history and cultural significance of this important plant The final part of the book examines the changing landscape of tobacco use in these communities today set against the backdrop of the increasing power of the national and transnational tobacco industry The first critical overview of tobacco and its uses across lowland South America this book encourages new ways of thinking about the problems of commercially exploited tobacco both within and beyond this source region
