

West Coast LEAF Position Paper: Access to Abortion and Contraception

March 2013

- 1. Women's equality rights under the Canadian Charter of Rights and Freedoms cannot be realized without access to safe, legal and publicly funded abortion care. Women's autonomy over their bodies and freedom to choose if and when to have children is paramount. The state has no role limiting women's reproductive choices or compelling women to have children against their will, either through legislative measures or by failing to ensure equal and adequate access to reproductive health care, including abortions.**

Access to abortion care is a fundamental issue of women's equality. Only women become pregnant, bear children, breastfeed, and are disproportionately responsible for child care. The decision whether and when to become pregnant and bear children impacts on women's autonomy, privacy, economic security, health and safety.

Women's reproductive rights include the right to control their own fertility and the right to be free from coercion in their reproductive choices. Women's reproductive rights also include the right to make informed decisions and to give informed consent to any medical intervention affecting them.

Barriers to accessing abortion care undermine women's equality rights. Denied the ability to make their own reproductive choices, women do not have autonomy over their own lives and are prevented from full and equal participation in Canadian society. Women cannot truly exercise their constitutional and fundamental human rights without accessible, safe, and publicly funded abortion care that is available to all women, without restriction or barriers.

The Supreme Court of Canada made clear in 1988 that the criminalization of abortion is a violation of a woman's right to security of the person, protected by section 7 of the *Canadian Charter of Rights and Freedoms*.¹ Safe, legal and publicly funded abortion care is also guaranteed under the *Canada Health Act*.

Ballenger,1999 Any teacher driven to despair by a stack of student research papers will find welcome inspiration in Beyond Note Cards Since the research paper first became a fixture in the composition classroom no other assignment has caused as much dread in students By putting it in historical context Ballenger offers new insight into the problems and promise of the research paper and practical advice on how to revive it

Beyond Note Cards examines the best of the existing scholarship to offer a fresh theoretically sound approach to teaching the research paper. Drawing on the recent movement to encourage inquiry based learning, Ballenger argues that the spirit of inquiry should be at the heart of research paper instruction, not the usual preoccupation with teaching the paper's formal qualities. While Ballenger deals with theory, his book is never dry. Through case studies of his students and often revealing autobiographical anecdotes, the author weaves a fascinating story about the evolution of the research paper historically and in his own classroom. The book also contains many practical features, including classroom tested exercises and assignments to help students become better researchers and research writers, original survey information that instructors can use to discuss the assignment with their own students, a special section on how to teach the double entry journal as part of a research assignment, a helpful appendix that explores Internet research and new approaches to note taking. Beyond Note Cards is an essential resource for instructors who are anxious to build connections between personal writing assignments and academic writing by highlighting the habits of mind that are present in both. In addition, teachers who already use Ballenger's popular student handbook *The Curious Researcher* (Allyn Bacon) will discover new ways to supplement it.
