The African Methodist Episcopal Church Dennis C. Dickerson,2020-01-09 Explores the emergence of African Methodism within the black Atlantic and how it struggled to sustain its liberationist identity *The Sunday school chronicle [afterw.] New chronicle of Christian education* National Sunday school union,1877 *Two Centuries in Two Weeks* Tannie Stovall,2009-01-22 **The New Negro in the Old South** Gabriel A. Briggs,2015-11-13 Standard narratives of early twentieth century African American history credit the Great Migration of southern blacks to northern metropolises for the emergence of the New Negro an educated upwardly mobile sophisticate very different from his forebears Yet this conventional history overlooks the cultural accomplishments of an earlier generation in the black communities that flourished within southern cities immediately after Reconstruction In this groundbreaking historical study Gabriel A Briggs makes the compelling case that the New Negro first emerged long before the Great Migration to the North The New Negro in the Old South reconstructs the vibrant black community that developed in Nashville after the Civil War demonstrating how it played a pivotal role in shaping the economic intellectual social and political lives of African Americans in subsequent decades Drawing from extensive archival research Briggs investigates what made Nashville so unique and reveals how it served as a formative environment for major black intellectuals like Sutton Griggs and W E B Du Bois The New Negro in the Old South makes the past come alive as it vividly recounts little remembered episodes in black history from the migration of Colored Infantry veterans in the late 1860s to the Fisk University protests of 1925 Along the way it gives readers a new appreciation for the sophistication determination and bravery of African Americans in the decades between the Civil War and the Harlem Renaissance **The IMS ... owned book publishers in the United States addressing the special concerns of black people in ways that other book publishers have not. This is the first work to treat extensively the individual publishing histories of these firms. Though largely ignored by historians, the story of these publishers as documented in this study reveals fascinating details of literary history as well as previously unknown facts about the contribution of blacks to Western civilization. Donald Franklin Joyce offers comprehensive profiles of forty-six publishing companies selected for inclusion through an examination of major bibliographic works, book advertisements, periodical literature, and business directories. Each profile contains information on the company's publishing history, books and other publications that were released, information sources about the firm, other titles issued, libraries holding titles produced by the publisher, and officers and addresses where appropriate. Entries are arranged alphabetically by the publisher name, while an appendix presents a geographic listing of the firms, and an index offers author, title, and subject access. This work will be an important resource for students, scholars, and researchers interested in cultural and intellectual black history, as well as public and academic libraries seeking specific information on individual publishing companies.
