culture Meth is the latest epidemic to attract the attention of law enforcement and the media but like cocaine and heroin its  
roots are medicinal It was first synthesized in the late nineteenth century and applied in treatment of a wide range of  
ailments by the 1940s meth had become a wonder drug used to treat depression hyperactivity obesity epilepsy and addictions  
to other drugs and alcohol Allied Nazi and Japanese soldiers used it throughout World War II and the returning waves of  
veterans drove demand for meth into the burgeoning postwar suburbs where it became the mother s helper for a bored and  
lonely generation But meth truly exploded in the 1960s and 70s when biker gang cooks using burners beakers and plastic  
tubes brought their expertise from California to the Ozarks the Southwest and other remote rural areas where the drug could  
be manufactured in kitchen labs Since then meth has been the target of billions of dollars in federal state and local anti drug  
wars Murders violent assaults thefts fires premature births and AIDS rises in all of these have been blamed on the drug that  
crosses classes and subcultures like no other Acclaimed journalist Frank Owen follows the users cooks dealers and law

**Anthropologies of Entanglements** Christiane Voss,Lorenz Engell,Tim Othold,2023-08-24 Media and human  
modes of existence are always already intertwined and interdependent The notion of the anthropocene has further stimulated  
a new examination of ideas about human agency and responsibility Various approaches all emphasize relational concepts and  
the situatedness and embodiment of human and also non human existences and experiences Their common interest has  
shifted from any so called human nature to the multitude of cultural topographical technical historical social discursive and  
media formats with which human existences are entangled This volume brings together a range of thinkers from  
international backgrounds and puts these important reflections and ideas in the spotlight More specifically the volume  
explores the concept of anthropomedial entanglements It fosters an understanding of human bodies experiences and media  
as being immanently entangled and mutually constituting prior to any possible distinction between them The different  
contributions thus open up a dialogue between empirical case studies and media historical research on the one hand and the  
conceptual work of media and cultural philosophies and aesthetics on the other hand     **Truth Seeker** ,1893     **The Truth
