

the black code laws were established which restricted black people in the country from owning guns. However, the enactment of the civil rights act by the congress in 1986 overrode a number of provisions within the black code act and this allowed blacks to own guns in the country (Alters, 2011).

However, a number of laws were established especially within the southern states which decreased the accessibility to cheap guns in within the states. The desire to control gun use in the United States gained momentum in the 20th century when the congress passed a law in 1927 that prohibited the mailing of concealable firearms. The control and regulation of automatic guns and rifles was also done in 1934 when the national firearm act was passed, an act that imposed stricter regulations on those who sold guns (McGovern, 2012).

Every business entity dealing with guns and firearms must obtain a \$1 license and a record of all guns sold which were to be submitted to the regulatory authority. The enactment of the federal firearms act introduced new restrictions and led to the age limit of those who were viable to purchase and own guns in the country. Before obtaining a gun, the age, mental stability, criminal record, drug abuse history and citizenship must be provided and

ascertained by the seller. The violent crime control and law enforcement act of 1994 further increased the restriction on gun possession, purchase and use, a law that was attributed to decreased gun violence in the country (Alters, 2011).

The second amendment and gun control efforts

Despite the progress that has been made by the federal government, states and local governments, the overriding provisions of the second government have infringed on the gun controls effort. Different interpretations of the second amendment have been attributed to the confusion which has marred the gun control efforts in the country.

During the time of the enactment of the second amendment, the foundation generation lacked enough trust on the ability of the army to protect their lives and properties. Most of the citizens also adopted the long English tradition that governments controlled by the minority continue to use guns as ways of controlling and oppressing the majority in the country. With
