Directing the Story Francis Glebas,2025 This book grew out of desperate need I was a storyboard artist at Disney and had no idea what I was doing At Disney I was surrounded by amazing talents I went into work early and typed up notes on what I was learning This experience became Directing the Story I went on to storyboard over a dozen features several TV animated shows and later directed Donald Duck in Fantasia 2000 Piglet s BIG Movie and 2 seasons of Mira Royal Detective This new edition of Directing the Story includes storyboarding for 3D animation illustrated with storyboard examples During my time teaching storyboarding I noticed many beginners struggle with drawing the figure I ve introduced drawing star figures They re the equivalent of the flour sack technique animators use to learn to animate flow force timing and shape distortion And once the student masters that I show how the anatomy drops right into place Out of my frustration

of trying to write my own stories and watching the waste at the studio s race to get things into production I ve struggled for years to discover the secrets of story I m currently working on a new theory of story which shows how all the parts of story character and plot work together I m including the beginning basics of this theory which allows my students to come up with a story in 7 minutes Plot takes longer

Teaching Computing Unplugged in Primary Schools Helen Caldwell, Neil Smith, 2016-10-18 Teaching primary computing without computers The Computing curriculum is a challenge for primary school teachers The realities of primary school resources mean limited access to computer hardware But computing is about more than computers Important aspects of the fundamental principles and concepts of computer science can be taught without any hardware Children can learn to analyse problems and computational terms and apply computational thinking to solve problems without turning on a computer This book shows you how you can teach computing through unplugged activities It provides lesson examples and everyday activities to help teachers and pupils explore computing concepts in a concrete way accelerating their understanding and grasp of key ideas such as abstraction logic algorithms and data representation The unplugged approach is physical and collaborative using kinaesthetic learning to help make computing concepts more meaningful and memorable This book will help you to elevate your teaching and your children s learning of computing beyond the available hardware It focuses on the building blocks of understanding required for computation thinking
