---

## What Is An Abstract?

An abstract is a descriptive, self-contained, short summary of a larger work. An abstract differs from an introduction because it is more concise. It gives a brief overview of the longer work that the person is about to read and informs them of all the key information that they should know going into it.

An abstract is purely descriptive, so it makes no analytical points or judgements. It should detail the aims and outcomes of the work that it precedes, but it should not provide any statistics or other specific results because the reader will discover those by reading the longer work.
