

The following policy template is for example purposes only. It contains the policy mandates that would be typical for a smaller merchant that has only point-of-sale (POS) terminals. Merchants who use this template should make modifications reflective of their specific operational environments. Merchants who have more sophisticated systems (for example: servers, printers, local area networks, etc.) will need to add additional policy mandates to ensure a comprehensive policy.

[Delete this disclaimer once the Merchant's Policy is written to reflect its specific environment]

**Special Ops: Host and Network Security for Microsoft Unix and Oracle**

Syngress, 2003-03-11 Special Ops Internal Network Security Guide is the solution for the impossible 24 hour IT work day. By now most companies have hardened their perimeters and locked out the bad guys but what has been done on the inside. This book attacks the problem of the soft chewy center in internal networks. We use a two pronged approach. Tactical and Strategic to give readers a complete guide to internal penetration testing. Content includes the newest vulnerabilities and
