

MAKING INFERENCES

Name: _____

THE VOLCANO

The explorers were hiking to the highest ridge of the volcano to collect data for science. Beads of sweat were dripping down their bodies as they walked higher and higher. Finally they reached the top and started collecting the samples for their research. Without warning the ground beneath them started to tremble powerfully. "It's erupting!" they screamed, "RUN!" They sped down the volcano as a dark grey cloud spewed from above. Ash and rock started to rain down on them as they raced towards safety. A thunderous BOOM sounded and they could feel the heat of the lava behind them. They sprinted down until they reached the helicopter. Up, up, up into the air they went. They made it!

1. How do you think the explorers felt when they realised the volcano was erupting?

How did you make this inference?

2. Why do you think beads of sweat were dripping down their bodies?

How did you make this inference?

3. How do you think the explorers initially arrived at the volcano?

How did you make this inference?

Reading in Chinese as an Additional Language Liu Li, Dongbo Zhang, 2022-12-29 Reading in Chinese as an Additional Language focuses on Chinese literacy acquisition which has been considered most difficult by both learners and teachers of Chinese as an additional language CAL Three major areas are covered 1 acquisition of Chinese characters 2 reading comprehension subskills and reader s identity 3 reading instruction and assessment The first part delves into the foundation of Chinese literacy development how to learn and teach Chinese characters The second part examines various learners reading comprehension subskills as well as the evolution of learners literacy identity The third part explores effective instructional methods and assessment practices for CAL reading development Theoretically this book provides frameworks and evidence from both cognitive and sociocultural perspectives on the nature of CAL reading development Pedagogically the book showcases how to teach and assess CAL reading skills Methodologically this book includes empirical studies using both qualitative and quantitative methods In terms of scope the book covers a much broader spectrum of issues about CAL reading research and classroom teaching than has previously been available Writing is also discussed in several chapters In terms of technology the book includes discussion on how the use of computers the Internet and social media impacts students Chinese literacy acquisition This book will help CAL researchers and educators better understand the nature of CAL reading development and become well informed about CAL classroom teaching and assessment including the application of interactive approaches to teaching and assessing diverse reading skills

Powerful Literacy in the Montessori Classroom Susan Zoll, Natasha Feinberg, Laura Saylor, 2023 Teaching reading successfully requires deep knowledge of the reading process and development as well as the implementation of impactful reading instruction and differentiation This book aligns Montessori didactic materials and pedagogy developed over a century ago with current research on reading development Readers will gain a solid overview of the Montessori philosophy and method specifically those related to reading and language development enabling them to support their practice in today s educational context while inspiring the wider field of education The authors explain how the Montessori approach is inherently aligned with the Science of Reading in that they are both scientifically based and contain methods that follow a logical systematic and explicit progression of teaching and learning Montessori education supports instructional differentiation that is cognizant of children s need for independence and highly mindful of literacy and language development This book provides valuable contributions to all educators implementing Science of Reading and Structured Literacy in their practice and is a must have for Montessori teachers preschool to grade 3 and those that prepare coach and supervise them Book Features Aligns the Montessori curriculum to reading research currently known as the Science of Reading Explains how the Montessori curriculum builds reading skills background knowledge and vocabulary across disciplines Shows educators how to balance state requirements and standards with maintaining a pedagogy aligned with Montessori principles Provides descriptions of teaching materials classroom

examples and images Demonstrates how to use Montessori methods to support multiculturalism and differentiation to meet the needs of diverse students Includes suggested progressions of development such as phonological awareness that extend lessons using the Moveable Alphabet Explores multisensory approaches to language and literacy instruction *McGraw-Hill Reading [Grade 4]*, 2001

The Everything Parent's Guide to Common Core ELA, Grades K-5 Felicia Durden, 2015-09-15 A guide for parents hoping to prepare their children for the Common Core English Language requirements Intended to help children in grades K-5

The Skill Approach in Education Mehmet Serdar Erciş, Yusuf Söylemez, 2018-07-27 Today information and technological developments grow at a rapid pace Social and political life becomes more and more complicated and in this process active citizenship becomes more essential Knowledge driven changes in society and economies require individuals to quickly acquire new skills Otherwise it is increasingly difficult for employees to adapt to business life and to find a job Education has to take account of these circumstances adapt to the rapid developments in the world and educate individuals to continue lifelong learning For this skills such as active and independent learning assertiveness creativity self improvement lifelong learning are important Skill teaching differs from knowledge teaching Skill is the transfer of knowledge to practice This process involves a learning process that requires the steps of researching planning controlling and correcting The knowledge should be organized integrated transferred into practice mental and physical resources should be activated and knowledge use should be demonstrated in practice in order to improve the skill This book contributes to the teaching of skills and includes basic concepts and skills language skills science and mathematics skills psycho social skills and visual arts skills It also explains how to teach skills how to prepare for activities and how to implement activities in educational settings These applications are intended to draw attention to skill teaching to raise educators to increase the success of education to improve the skills of students and to enable them to use the skills they have learned in school outside of school and in complex tasks

Effects of Text Level and Presentation Format on Inference-making Processes with Narrative Texts Carolyn Amanda Jaynes, 2004
