whilst the second section contextualises it through the analysis of a diverse range of international case studies The concluding section considers future prospects for the enhancement agenda in the light of the international pressures facing all systems of higher education in the future Policy will inevitably be shaped by the historical contexts within which national systems are located The book draws on a wide range of international case studies examined by a host of contributing experts The movement towards quality enhancement can be seen as stimulating action at the grassroots of the academy to self generate improvement It is a counter to the prevalent view that change in higher education is essentially about the institutional response to increasing societal pressure and state control and as such is a welcome contribution to the literature This comprehensive volume is essential reading for anyone involved in higher education and educational policy
