*ICEL2016-Proceedings of the 11th International Conference on e- Learning* Prof. Dr. Rozhan M. Idrus and Dr Nurkhamimi Zainuddin,2016 **Universities as Living Labs for Sustainable Development** Walter Leal Filho,Amanda Lange Salvia,Rudi W. Pretorius,Luciana Londero Brandli,Evangelos Manolas,Fatima Alves,Ulisses Azeiteiro,Judy Rogers,Chris Shiel,Arminda Do Paco,2019-04-30 This book fills an important gap in the literature and presents contributions from scientists and researchers working in the field of sustainable development who have engaged in dynamic approaches to

implementing sustainability in higher education It is widely known that universities are key players in terms of the implementation and further development of sustainability with some having the potential of acting as living labs in this rapidly growing field Yet there are virtually no publications that explore the living labs concept as it relates to sustainability and in an integrated manner The aims of this book which is an outcome of the 4th World Symposium on Sustainable Development at Universities WSSD U 2018 held in Malaysia in 2018 are as follows i to document the experiences of universities from all around the world in curriculum innovation research activities and practical projects as they relate to sustainable development at the university level ii to disseminate information ideas and experiences acquired in the execution of projects including successful initiatives and good practice iii to introduce and discuss methodological approaches and projects that seek to integrate the topic of sustainable development in the curricula of universities and iv to promote the scalability of existing and future models from universities as living labs for sustainable development The papers are innovative cross cutting and many reflect practice based experiences some of which may be replicable elsewhere Also this book prepared by the Inter University Sustainable Development Research Programme IUSDRP and the World Sustainable Development Research and Transfer Centre WSD RTC reinforces the role played by universities as living labs for sustainable development Sustainable Development Goals for Society Vol. 1 Godwell Nhamo, Muchaiteyi Togo, Kaitano Dube, 2021-06-16 Written by 43 authors from Africa Europe and Latin America this book presents 19 topics addressing poverty in the context of Sustainable Development Goals SDGs leadership in implementing SDGs and SDGs in service delivery and local government As the world has gone past five years of implementing the 2030 Agenda for Sustainable Development and the intertwined 17 SDGs new opportunities in research continue to open up Hence documenting some of the initiatives put in place around the world regarding the implementation of the SDGs is one of the aims of this publication With 10 years remaining the book further enhances the desire to scale up SDGs implementation The selection of case studies from the selected regions also provides a balance in terms of how the SDGs are being rolled out for economic growth environmental stewardship and social protection The ambition remains even with the challenge brought by the COVID 19 pandemic that preoccupied the whole of 2020 spilling over to 2021 There is no doubt that resources have been diverted but the world must stay on the course to 2030 and beyond Therefore the book is relevant for several stakeholders including the academics development partners government officials and other individuals that are involved in making sure no one is left behind in the lead to 2030

**Sustainable Development Goals for Society Vol. 2** Godwell Nhamo, David Chikodzi, Kaitano Dube, 2021-06-26 This book profiles various cases that are emerging in addressing global challenges in the context of SDGs for society in the era of climate change and covers case studies of projects being undertaken to tackle biodiversity food security climate change energy and water security The book is written by 37 authors and will appeal to various stakeholders including academics working within the identified thematic areas policy planners development agencies governments and

United Nations agencies The adoption of the Sustainable Development Goals SDGs in 2015 ushered a new era in the global development agenda as the world transitioned from the Millennium Development Goals MDGs The new era of SDGs that are all inclusive unlike the MDGs with the focus now being on ensuring human success that is predicated on environmental protection The year 2020 marked five years post the adoption of the SDGs with increased calls for stock taking of progress made amid strong calls for a decade of action to accelerate the delivery of the SDGs by 2030 These calls have been louder now given the impact of the COVID 19 pandemic which reset the global economy and increased intensity of extreme weather events across the world Since climate change has emerged as one of the biggest threats to the achievement of the SDGs there has been growing concerns on its impact on biodiversity loss and the extinction of some species There are also concerns regarding increased food insecurity at the household level in some parts of the world particularly in Asia and Africa With the demand for climate change action on the increase there have also been growing calls for the big carbon emitters to drastically cut their emissions and invest in clean energy to save the planet by following development pathways making emissions stay under the 1.5 C increase in temperature **Annual Report** South Africa.
