### **Understanding Hard to Maintain Behaviour**

**Change** Ron Borland, 2014-02-03 The book presents an integrative theory of hard to maintain behaviours that includes hard to reduce or eliminate behaviours like smoking and other drug use overconsumption of food or unsafe sex and hard to sustain behaviours like exercise and sun safe behaviours Most of the examples come from the author's work on tobacco smoking but it is relevant to anyone who is concerned to understand why some forms of desirable behaviour are so hard to achieve and to those trying to help people change It also has important implications for public health campaigns and for the development of policies to nudge behaviour in desirable ways The book provides readers with frameworks to Determine whether a hard to maintain behaviour is a result of the skills needed to perform it its reinforcement history the way the person thinks about it the context or some combination of these Better integrate cognitive and behavioural change strategies including emergent strategies related to mindfulness and acceptance plus novel ways of retraining operational processes Understand the different nature of challenges for behaviours where multiple attempts are typically required before the desired behaviour pattern is sustained Better understand the role of feelings and emotions as influences on behaviour Understand the limits of environmental factors to determine change Understand the limits of self control and will power Evaluating the Knowledge of at Risk High School Students in Ecology Through Alternative Assessment Tina Marie Kopinski, 2007

*Creative Metaphor, Evaluation, and Emotion in Conversations about Work* Jeannette Littlemore, Sarah Turner, Penelope Tuck, 2023-09-06 This book explores the roles played by creative and conventional metaphor in expressing positive and negative evaluation within a particular workplace drawing on interviews with 31 current and former employees of the British Civil Service Metaphor is often used to express evaluation but relatively few studies have investigated the ways in which metaphor is used to evaluate personal emotionally charged experiences The volume explores how metaphor serves a predominantly evaluative function with creatively used metaphors often more likely than conventional metaphors to perform an evaluative function particularly when the evaluation is negative or ambiguous The findings provide a deeper understanding of the relationship between evaluation creativity and metaphor Examples including military metaphors and family metaphors show how creativity often comes through subverting the norms of use of a particular metaphor category or altering the valence from its conventional use The study elucidates the myriad ways in which people push at the boundaries of linguistic creativity in their efforts to describe the qualitative nature of their experiences Demonstrating how metaphor can be a powerful tool for the nuanced expression of complex and ambiguous evaluation this book will appeal to researchers interested in better understanding metaphor creativity evaluation and workplace cultures **The South Western**
