*The Making Available Right* Cheryl Foong, 2019 p. 1. The right of copyright owners to make their content available to the public is crucial in an environment driven by access. *The Making Available Right* provides in depth analysis of this exclusive right and offers insights on how we can approach the right in a more transparent and principled manner. This thought provoking book brings together detailed analysis of the law and a broader consideration of copyright's fundamental aims and will be of interest to judges, practitioners and scholars concerned about how copyright deals with access going forward.

*Beyond the Screen* Frank A. Aycock, 2025-11-26 Written in an accessible style, this book explores the complex future of television across its different industries, providing professional producers with key insights and pathways to adapt and prepare. By exploring traditional media industries and how they have come to make up today's streaming and broadcasting media world, the text provides a detailed discussion of the future of systems programming and television viewing. This includes a wide range of topics such as internet protocol television, IPTV, set top boxes, STBs, ATSC 3.0, virtual reality, VR, holographic television and artificial intelligence, AI, as well as other cutting edge technologies. Additionally, this book examines the future of content monetization by exploring the new and sometime controversial ways of advertising, product placement and search and promotion that will be required to be financially successful in this future television environment. *Beyond the Screen* is an indispensable addition to the library of every television professional, academic student and television viewer who wants to know where this fascinating world of television is heading and what it will take to be successful within it.
