Martyushev, Anna Bogdan, 2016-02-18 Selected peer reviewed papers from the IV International Conference for Young Scientists High Technology Research and Applications 2015 HTRA 2015 April 21 24 2015 Tomsk Russia **Application For Nanotechnology For the Treatment of Brain Diseases and Disorders** Bingyang Shi, William Banks, Miqin Zhang, Pu Chun Ke, Meng Zheng, Yan Zou, 2024-07-15 Brain diseases and disorders such as dementia and glioblastoma are among the deadliest diseases in humans and put an overwhelming burden on healthcare systems. Despite recent progress in elucidating the causes of brain diseases a limited amount of effective therapeutics have been developed. One major obstacle is the efficient delivery of therapeutic agents across the Blood Brain Barrier BBB into the affected region of the brain. Utilizing nanoparticles as a drug delivery system provides a simple and effective approach with improved efficacy and bioavailability. In the last two decades numerous advances have been made in this field which will bring nanomedicine closer to the clinic and bring new therapeutic options for the treatment of brain diseases which have proved challenging to treat. Such advancements include improvements in the novel design of nanoparticles with tissue compatibility, versatile loading capacity, BBB penetration ability, and greater target specificity.

**Choice of Law in Practice** Symeon Symeonides, 2020-12-15 This book is a true treasure trove of original research, incisive observations and useful practical pointers. Written by an author who has read more than sixty thousand conflicts cases in the last thirty years, the book skillfully guides American and foreign readers through the labyrinthine alleys of American choice of law litigation and distills the resulting lessons for attorneys, academics and lawmakers. This is a book about law in action. The author reviews the decisions of all American appellate courts in the last twenty years and discusses those that add something new to the development or understanding of conflicts law, particularly choice of law. It is a daunting task to find an answer to a choice of law question in American law. In all states except two and Puerto Rico, the answer must be found in the particular state's case law. How to find it, To evaluate it, to compare it with other states' law with one's own. For over 33 years Professor Symeonides has rendered an enormous service to all segments of the profession, courts, practitioners, academics, with his annual survey of virtually all choice of law decisions of American courts, most of them thoughtfully annotated and evaluated. His surveys proved to be an extraordinary help. The present volume consolidates most of these contributions. It is enhanced by a new Introduction and a comprehensive Index. This consolidated presentation of his expert reviews and commentary is an extraordinary contribution. Peter Hay L Q C Lamar Professor of Law Emeritus Emory University School of Law. It is impossible to overstate the value and significance of the Choice of Law Surveys written by Dean Symeon C Symeonides over thirty years. These surveys have not only educated law professors and lawyers about changing dynamics in the field of choice of law but they have been instrumental in refining the modern method of analyzing and resolving these cases and have formed the basis for the emerging Third Restatement of Conflict of Laws. In all the ways

that count Symeonides is the father of choice of law in the twenty first century He deserves our gratitude and respect and our recognition of his pivotal place in the choice of law field Joseph W Singer Harvard Law School

book details how the water quality of the Blesbokspruit River in Gauteng South Africa was socially constructed by stakeholders and key individuals in the context of acid mine drainage AMD and its treatment Social constructionism is used as the framing for this research to explain how water is intrinsically social Findings presented here show that stakeholders are aware that the changes in the physicality of the Blesbokspruit resulted from human interventions and varied uses of the water over the years Such knowledge among factors such as the historical context of mining current coal mining flows and volumes of water technology used and processes followed information and communication and vested interests influence social constructions of the water quality What counts as the truth about water varies depending on the individual's perspective their purpose and their individual interests Further how one defines water quality influences what treatment processes are preferred in order to improve water quality The book explains why for example a treatment process meant to improve water quality gained a bad reputation by the public because of the South African government's silo approach The book explains how these social constructions are entrenched in power relations between stakeholders regarding AMD treatment and illustrates how power was used to influence decisions to improve the water quality of the Blesbokspruit The case presented in this book offers insights and recommendations for policymakers working in water governance including means to influence social constructions of water quality and ways to clarify roles and responsibilities in pursuit of improved cooperative government

**Fees Must Fall** Susan Boysen,2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa More broadly it radically questioned the socio political dispensation resulting from the 1994 social pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more

complex than those of earlier struggles. The student movement has challenged the hierarchical top down leadership system of university management and it's double speak of professing to act in workers and students' interests yet entrenching a regressive system for control and governance. University managements while on one level amenable to change have also co-opted students into their ranks to create co-responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution. This book maps the contours of student discontent a year after the start of the FeesMustFall revolt. Student voices dissect colonialism, improper compromises by the founders of democratic South Africa, feminism, worker rights and meaningful education. In-depth assessments by prominent scholars reflect on the complexities of student activism, its impact on national and university governance and offer provocative analyses of the power of the revolt.

[Germany's efforts in prosecuting international crimes in Syria. A promising shift from a "No-Safe-Haven" towards a "Global-Enforcer" approach?](#) Franca Langlet, 2023-03-10. Master's Thesis from the year 2019 in the subject Law Penology grade 1.4 Maastricht University language English abstract. The purpose of this paper is to evaluate on whether the use of structural investigations in Syria indicate a promising shift in the German practice of the CCAIL from a no safe haven

towards a global enforcer approach In order to do so the following steps will be taken First there will be an assessment of the two main legal provisions and their underlying ratio that are relevant for the practice of the CCAIL and their interplay namely 1 CCAIL providing genuine universal jurisdiction to German courts for International Crimes and 153f CCP the prosecutorial discretion given in cases of pure foreign crimes traditionally frustrating 1 CCAIL 36 In a second step cases that are exemplary for the previous approach will be examined on considerations made and reasons given by the FPG leading to decision to desist from proceeding and the restrictive no safe haven practice followed by an evaluation In a third step the current prosecutorial strategy structural investigations and its theory as well as practice will be analysed to assess how the use of structural investigations changes the evaluation of the reasons underlying the restrictive practice The aim is to answer the research question To what extent structural investigations as the current German prosecutorial strategy used to investigate Crimes of International Law in Syria operate on the interplay between the prosecutorial discretion 153f CCP and the codified universal jurisdiction 1 CCAIL to be applied in a proactive global enforcer manner
