## **Application Forms For Nwu 2015:**

**Curriculum Development and Online Instruction for the 21st Century** Fudge, Tamara Phillips, Ferebee, Susan Shepherd, 2021-06-25 The world of education has undergone major changes within the last year that have pushed online instruction to the forefront of learning. Thanks to the COVID 19 pandemic online learning has become paramount to the continued and uninterrupted teaching of students and has forced students and teachers alike to adjust to an online learning environment. Though some have already returned to the traditional classroom or plan to very soon others have begun to appreciate the value of online education initiatives that had previously been discussed but never acted upon as they have been in the past year. With plenty of positive and negative aspects online learning is a complex issue with numerous factors to consider. It is an issue that must be studied and examined in order to improve in the future. *Curriculum Development and Online Instruction for the 21st Century* examines the issues and difficulties of online teaching and learning as well as potential solutions and best practices. This book includes an examination on the value of teaching fully via the internet as well as the challenges inherent in the training of teachers to teach in online environments. While addressing key elements of remote learning such as keeping student data safe as well as methods in which to engage students this book covers topics that include assessment tools, teaching deaf students, web technology and standardized curricula. Ideal for K-12 teachers, college faculty, curriculum developers, instructional designers, educational software developers, administrators, academicians, researchers and students, this book provides a thorough overview of online education and the benefits and issues that accompany it.

[Application of LC-MS/MS in the Mycotoxins Studies](#) Laura Gámiz-Gracia, Ana M. García-Campaña, Natalia Arroyo-Manzanares, 2020-06-17 Mycotoxins are secondary metabolites produced by the fungi of different species mainly *Aspergillus*, *Fusarium* and *Penicillium* with toxic effects for humans and animals. These mycotoxins can contaminate food and feed. The European Union (EU) has established the maximum permitted or recommended levels for well-known mycotoxins in different foodstuffs. However, there are other mycotoxins that are not included in the regulations, the emerging mycotoxins whose toxicity is still not clear and the modified or masked mycotoxins produced as a consequence of a detoxification strategy of the host plant of the fungus or during food processing. These mycotoxins could pose a risk and should also be taken into account. In order to assure consumers' health, analytical methods for the accurate determination of mycotoxins in different food matrices and feeds are required. In this sense, liquid chromatography tandem mass spectrometry (LC-MS/MS) is a powerful tool for their unique identification and quantification. Moreover, the use of high-resolution mass spectrometry (HRMS) allows one to identify novel mycotoxins and targeted/untargeted approaches for study. This Special Issue compiles recent applications of LC-MS/MS in mycotoxin studies as well as the development and validation of new analytical methods for their identification and quantification in different food matrices and feed occurrence studies and the biomonitoring of mycotoxins and their metabolites in biological fluids.

[Multilingualism and Intercultural Communication](#) H. Ekkehard

Wolff,Pamela Maseko,Russell H Kaschula,Christine Anthonissen,Bassey E Antia,2017-05-01 An in depth look at the changing sociolinguistic dynamics that have influenced South African society To date there has been no published textbook which takes into account changing sociolinguistic dynamics that have influenced South African society Multilingualism and Intercultural Communication breaks new ground in this arena The scope of this book ranges from macro sociolinguistic questions pertaining to language policies and their implementation or non implementation to micro sociolinguistic observations of actual language use in verbal interaction mainly in multilingual contexts of Higher Education HE There is a gradual move for the study of language and culture to be taught in the context of professional disciplines in which they would be used for example Journalism and African languages Education and African languages etc The book caters for this growing market Because of its multilingual nature it caters to English and Afrikaans language speakers as well as the Sotho and Nguni language groups \_ the largest languages in South Africa and also increasingly used in the context of South African Higher Education It brings together various inter linked disciplines such as Sociolinguistics and Applied Language Studies Media Studies and Journalism History and Education Social and Natural Sciences Law Human Language Technology Music Intercultural Communication and Literary Studies The unique cross cutting disciplinary features of the book will make it a must have for twenty first century South African students and scholars and those interested in applied language issues
